

April 19, 2021 AZBSN COVID-19 Digital Access Task Force Teleconference Report

Attendees

Steve Peters, Oris Friesen, Henry Goldberg, Mark Goldstein, Tracey Beal, Karen Beshak, Andrew Bevington, Melissa Boydston, Kirk Busch, Gene Carl, Michael Cohen, Zechariah Crook, Jerry Crow, Linnea Evans, Terence Ford, Ian Hathcock, Holly Henley, Karen Hewitt, Cindy Hogan, Dan Hunt, Shereka Jackson, April Jones, John Kelly, Ryan Kelly, Debbie Kovesdy, Glen Lineberry, Tarma Liranzo, Ilana Lowery, Sophia Mayberry, Clarence McAllister, Ryan McCaigue, Mala Muralidharan, Mauricio Orozco, Cody Pedersen, Lawrie Prickett, Tracy Rexroat, Paul Ross, Michelle Simon, Jeff Sobotka, Nicole Umayam, Joy Whiting, David Whitt, Karen Ziegler.

Task Force Website, Participants List, After-Hours Networking Sessions, Local First Arizona Economic Recovery Center, GenTech

Task Force Website

Steve has created an Updates and Events webpage on the task force website to inform task force participants about a variety of relevant programs and events. Steve includes a link to this webpage in his e-mails to the task force, and recommends task force participants look at this webpage regularly for important information on programs, events, and contacts.

Task Force Participants List

Steve reminded all task force participants to submit the Google form on the website with their contact information if they have not already done this. So far, about 75 people have filled out this Google form.

Steve has put a link on the meeting webpage to his spreadsheet of participants in the task force including their contact information. This is a good place for task force participants who are looking to connect with others on the task force.

Task Force After-Hours Networking Sessions

Steve is organizing task force after-hours virtual networking sessions to enable informal discussion and collaboration. These after-hours networking sessions will be held once a month from 5:00 – 6:30 pm. The first session will be held on Thursday, April 22nd.

Steve spoke with Mark Goldstein and Kirk Busch about the Arizona Technology Council networking events to get input on how to structure the task force networking sessions. A networking session will begin with introduction of attendees to build relationships – this will last for about 30 minutes. This will be followed by four breakout groups: two breakouts will be

focused on particular topics such as community networks and the Emergency Broadband Benefit (EBB) program, and two breakouts will be open discussion where attendees can drop in.

Local First Arizona Economic Recovery Center

Steve and Mark Goldstein reported on the newly-launched Local First Arizona “Economic Recovery Center” (discussed at the last task force meeting and see Mark’s link in the Appendix Chat), which aims to enable more qualified Arizona cities/towns/counties/non-profit organizations to win competitive federal, state, and foundation grants. Steve will invite Kimber Lanning, CEO of Local First Arizona, to deliver a presentation to our task force.

Mark noted that Local First Arizona focuses on assisting small local businesses in rural communities. They don’t seem to have broadband competencies, so our task force may be able to develop a partnership with them on assisting rural communities in applying for broadband grants. They publish information on grant applications and send out a newsletter on funding opportunities.

GenTech

Steve introduced Debbie Kovesdy, CEO of GenTech. GenTech started by working with Generation Yes (discussed at an earlier task force meeting) to train high-school students to provide tech support at Shadow Mountain High School. This evolved into a tech support company with 25 high school and college students providing IT expertise on computers and networking, and teaching students on coding, robotics, and computer science. They also work with Tom Mehlert of AZ StRUT on distributing refurbished computers to students in low-income households. See the Appendix 2 Chat for more information on GenTech.

Updates: State Broadband Director, AZ State Library, Telehealth & USDLA, ADE

State Broadband Director Update

Jeff Sobotka, State Broadband Director at the Arizona Commerce Authority (ACA), reported on his recent activities.

The ACA’s RFP on updating the state broadband strategic plan focused on the state’s middle-mile fiber network planning closed on April 15th. The winner of the RFP will be selected in two weeks. Jeff stated he is happy with the quantity and quality of the responses.

The follow-up Regional Technical Assistance Session to the 2nd ACA Arizona Broadband Workshop will be held on Wednesday April 21st, and people can attend any of the sessions (organized under COGs). Jeff can be contacted to register for this session, and Steve Peters noted that the task force Events & Updates webpage has links to register for the Arizona Broadband Workshops and Regional Technical Assistance Session. Jeff noted that Brad Burgess of ADOT will discuss right-of-way for middle-mile fiber at the April 21st sessions.

Jeff reported that Senator Daines with co-sponsor Senator Kelly of Arizona introduced the “Accelerating Rural Broadband Deployment Act” for enabling federal rights-of-way for fiber deployment. See Mark Goldstein’s link in the Appendix 2 Chat for more information on this.

Jeff stated that a number of CLECs are looking to deploy Fiber-to-the-Curb solutions in small cities in Arizona, driven by the state’s robust middle-mile fiber deployment plans.

Arizona State Library Update

Mala Muralidharan, E-rate Administrator for Public Libraries at the Arizona State Library, reported on her and Arizona State Library recent activities.

Mala reported that the first wave of E-rate funding commitments for the fiscal year 2021-22 came out today (April 19th). Arizona schools and libraries applied for a total of \$144 million in E-rate funding by the application deadline in March. In this first wave of funding commitments, Arizona received \$27 million, which is 3.9% of the total \$681 million nationally (more than the 2% Arizona might typically expect). Future funding commitments will be released in waves every Monday as the applications get reviewed. Schools and libraries upfront the money for E-rate-funded broadband projects, and are reimbursed after the projects are completed.

The Connect-Arizona team is working hard on outreach for the FCC Emergency Broadband Benefit (EBB) program. Their EBB toolkit has been posted on the Connect-Arizona website (<https://connect-arizona.com/ebb>) by Nicole Umayam – see the task force EBB Program Outreach discussion later in this report for more information about Arizona State Library EBB outreach work. The FCC is hosting a consumer-focused EBB webinar on April 27th at 12:00 pm MT, and the FCC will be launching an outreach partner toolkit.

See Appendix 1 for Mala's written report on E-rate funding and the Arizona State Library/FCC activities related to the EBB program.

Telehealth and USDLA Update

Steve Peters reported that he received an e-mail on two topics from Janet Major, Associate Director of Facilities and Outreach of the Arizona Telemedicine Program and Chair of the United States Distance Learning Association (USDLA) Board. The topics were: information about Distance Learning and Telemedicine (DLT) grants and how to apply for them; and upcoming USDLA webinars. Steve put this information on the task force meeting webpage.

Jeff Sobotka commented that he and Janet met with Mauricio Orozco, Community Engagement Manager of Care1st Health Plan Arizona, and were impressed by what they are doing in the telehealth area for their members.

ADE Update

Sophia Mayberry, Project Manager in the Office of the Superintendent of Public Instruction at the Arizona Dept. of Education (ADE), reported on recent ADE activities.

ADE is now providing funding for a K-12 support center to assist with teacher training.

.

Emergency Broadband Benefit Program Outreach

The task force discussed its work in organizing outreach to low-income households to apply for the FCC Emergency Broadband Benefit (EBB) program (discussed at previous task force meetings). The EBB program was launched on April 14th, and has limited funding (\$3.2 billion nationally) and is of limited duration, so the task force would like to assist Arizona low-income households in signing up before the funding and time run out. There is consensus that the most effective way to educate and enroll eligible households is through direct personal contact with

households from a trusted source such as schools, libraries, non-profit and faith-based organizations, social service and health care agencies, and local/state governments. Steve Peters has been in touch with a number of organizations participating in this task force about this. He has also constructed a draft EBB & Lifeline programs webpage on the task force website to provide relevant information. Tracey Beal, Executive Director of School Connect, is now taking the lead on organizing the task force's EBB outreach activities, and stated she is excited to be working with various task force participant organizations on this.

Nicole Umayam, Digital Inclusion Library Consultant at the Arizona State Library, reported that she took the EBB program toolkit developed by Cindy Hogan, Digital Equity Project Manager of the United Way of Tucson & Southern Arizona, and posted it on the Connect-Arizona website (<https://connect-arizona.com/ebb>). This website contains consolidated information on the EBB program and the service providers participating in Arizona, the Connect-Arizona Digital Navigators who provide one-on-one assistance, and a link to USAC for information and assistance.

Ilana Lowery, Arizona Director of Common Sense Media, is organizing communications to various organizations that can assist with outreach to low-income households in informing them about applying for the EBB program. They will be creating a media release to communicate to these organizations, will send them Cindy Hogan's EBB toolkit, and ask these organizations to disseminate EBB information to their networks.

Tracey Beal stated that Cindy and Nicole will put together a paper flyer to distribute to low-income households because most will not have online access. They are writing grant proposals to cover the costs of distributing the flyers, and would like to get the flyers out as quickly as possible so low-income households can apply for the program. Steve Peters commented that he would discuss the flyers with them because it is difficult to distribute the large amount of flyers required. Tracey is also working with Wes Brownfield, Executive Director of the Arizona Rural Schools Association, on setting up a pilot project at a rural school to sign-up households for the EBB program.

Jeff Sobotka commented that the EBB program funding is limited and Arizona will be competing with the other states to get their low-income households signed up as soon as possible. He emphasized that the task force should use all sources to do outreach (e.g. Wildfire, which works with people needing assistance with utility bills) since there are many Arizona low-income households that need help in obtaining broadband service. Tracey responded that the task force will be working on getting as much coverage as possible, and there is no problem if households receive information from more than one source. Steve added that the organizations that assist these households need navigators who can provide assistance and Cindy's toolkit will be useful for that. Mala Muralidharan added that the EBB program will expire in six months so the task force needs to get the word out to Arizona households before the time and money run out.

Mala noted that the Arizona State Library is holding a meeting with the Chief Librarians of all 15 Arizona counties on April 23rd where they will be explaining the EBB program and the Connect-Arizona website information on the program. The goal is to get the county libraries to help disseminate information about the EBB program. They have worked with Michelle Simon, Deputy Director of Pima County Public Library, who is closely involved with this outreach in Pima County: printing flyers, training librarians to assist patrons in applying for the EBB program, and putting information including the toolkit on their website, and the City Manager for Tucson will also help with outreach. They would like to replicate this Pima County outreach in other counties. See Appendix 1 for further information on this. Cindy Hogan commented that

she has met with Michelle Simon and is also looking at working with other partners in Tucson to reach housing/community developments.

Mauricio Orozco stated that the task force should also consider the federal McKinney-Vento Homeless Assistance Act that provides assistance for homeless youth. Tracey responded that schools and social workers who are involved with this will also be important for outreach. Paul Ross commented that the school district superintendents would be able to route the information to the McKinney-Vento liaisons and nutrition directors.

Steve asked how Mauricio's Care1st Health Plan Arizona and other AHCCCS health plans could assist with EBB outreach. Mauricio responded that Care1st has now included EBB program information on their website – Care1st has about 180,000 plan members in Arizona. Mauricio stated he would speak to their President about getting all AHCCCS health plans to share EBB information with their members. There are more than one million members in all the AHCCCS health plans, so this could provide outreach to many low-income households in Arizona. Steve asked if their members come into their offices and if there are navigators for the health plans – Mauricio responded they try to do as much as possible online and there is a statewide network of navigators to apply for AHCCCS plans.

Steve remarked that he will also be talking to the Arizona Association of Economic Developers and City/County Managers about assisting with outreach to their networks.

Steve concluded by thanking Tracey, Ilana, Cindy, Nicole, and Mala who have been working hard on the EBB program outreach efforts. Tracey thanked the Arizona State Library for all their work, and noted that School Connect is honoring them with their School Connect "Champion of Education" award on April 22nd.

There will be two upcoming federal webinars on the EBB program: the FCC webinar (noted earlier) on Tuesday April 27th at 12:00 pm MT and a USAC webinar on Wednesday April 28th at 12:00 pm MT. Steve will send out information to the task force about attending these webinars.

Next Steps

The next AZBSN COVID-19 Digital Access Task Force overall meeting will be held on Monday, April 26th at 7:30 am.

As noted above: 1) the Arizona Broadband Workshops Regional Technical Assistance Sessions (organized under COGs) will be held on Wednesday, April 21st; 2) the task force After-Hours Networking Session will be held on Thursday, April 22nd from 5:00 – 6:30 pm.

Henry Goldberg and Oris Friesen will write up a summary report of today's task force meeting.

Appendix 1: Mala Muralidharan Report on: E-rate Funding and FCC Emergency Broadband Benefit (EBB) Program

E-rate 2021-22

In the first wave of commitments that came out just this morning 4/19/21, AZ received a funding commitment of **\$27 Million** of the total **681 M totally committed in the 1st wave. This is about 3.9%.**

The funding commitment is released in waves every Monday as the applications get reviewed. Total that Arizona Schools and Libraries applied for in March 2021, for the 2021-22 cycle was **\$144M**.

EBB update:

Connect Arizona Team has been working fast and furiously on EBB and getting the word out.

EBB info page: <https://connect-arizona.com/ebb>

The EBB Toolkit is available on the site. Please feel free to use it and distribute it widely. The team has put together a communication plan to distribute the information. The team is working on printing and distribution of the flyers.

EBB Webinar – EBB Program for Consumer Groups Webinar, Wed, Apr 28, 2021 12:00 PM - 1:00 PM MST

The FCC [is hosting](#) a consumer-focused webinar on the Emergency Broadband Benefit **Tuesday, April 27, beginning at 3:00 PM ET**. The event will be streamed live on www.fcc.gov/live. Registration is not required for the webinar. [Emergency Broadband Benefit Webinar for Consumers and Outreach Partners | Federal Communications Commission \(fcc.gov\)](#)

The webinar will provide consumers and outreach partners with an overview of the Emergency Broadband Benefit program, eligibility information, and enrollment procedures. During the event, the FCC will discuss the materials developed for our partners' use in conducting outreach and education about the program.

Questions may be shared during, or in advance of this event, at broadbandbenefit@fcc.gov.

Coming Soon – The FCC will be launching an Outreach Partner Toolkit to include:

- **Sample Social Media** Entries (Word)
- **Newsletter/Email Blurb** (Word)
- **Press Release** (Word)
- **Fact Sheet** (Word)
- **Slide Deck** (9" x 5"; PowerPoint | PDF)
- **Flyers and Posters** (8 1/2" x 11"; PDF | JPG)
- **Consumer Handouts** (9" x 5"; 4"x5" PDF)

Consumer handouts and the fact sheet will also be available in multiple languages.

OUTREACH

1. On 23rd Friday, we have a meeting of the Chief Librarians of all the 15 Counties. While there is not much time for us to do a full-fledged training for them, we need the buy-in of the County Librarians...and they need to be informed so that they can push this down the line.
Nicole and I plan on doing a short video on what EBB is and where the training materials live i.e. Connect-Arizona. We will pre-record it and give it to them. We are figuring out the logistics.
2. Pima County Public Library - Michelle Simon, Deputy Director of the County Library.
 - They have a print shop in their library and will print our flyers (Spanish and English, the ½ pager and training materials for the trainers) for all her libraries' needs. We don't need to print for them.
 - They will have a notice outside all the Libraries and on their website to let the community know that they are ready and willing to help walk-ins fill the EBB form.

- They will have our documents on their “intranet” to print as needed. They will have all their staff trained.
- They have scanners and computers and all their staff will help during all their open hours.
- They will outreach to the community through their book mobiles.
- The Deputy Director met with City Leadership and they too have agreed to outreach to the community. So Pima County is covered – including the Tribal community.

[The Emergency Broadband Benefit Program \(getemergencybroadband.org\)](http://getemergencybroadband.org)

There is a video on applying for EBB.

Appendix 2: Chat from Zoom

Tracey Beal to Everyone (7:31 AM)

Great to see you, Debbie!

Debbie Kovesdy to Everyone (7:32 AM)

Hello Everyone! Thank you for the invite. I am honored to be here.

debbie@gentechsupport.com

gentechsupport.com

Tracey Beal to Everyone (7:35 AM)

Gen Tech is AWESOME!!!

April Jones to Everyone (7:36 AM)

Yes! Love Gen Tech!!!

Debbie Kovesdy to Everyone (7:42 AM)

Thank you!

Tracey Beal to Everyone (7:42 AM)

Gen Tech provided a computer build to a whole classroom as part of our School Connect Minit2Winit Event. The kids loved it!

Mark Goldstein to Everyone (7:43 AM)

Sens. Steve Daines (R-Mont.) and Mark Kelly (D-Ariz.) introduced the Accelerating Rural Broadband Deployment Act for federal ROW enabling and easing its use for fiber deployment. See <https://www.daines.senate.gov/news/press-releases/daines-kelly-introduce-bipartisan-bill-to-increase-broadband-coverage>

Nicole Umayam to Everyone (7:46 AM)

Connect Arizona EBB info page: <https://connect-arizona.com/ebb>

Gene Carl to Everyone (7:49 AM)

www.cox.com/ebb

Jeff Sobotka to Everyone (7:51 AM)

<https://www.azcommerce.com/broadband/arizona-broadband-workshops/>

Nicole Umayam to Everyone (7:58 AM)

It's a team effort!

Mauricio Orozco to Everyone (8:01 AM)

Thanks Jeff, it's a team effort

Debbie Kovesdy to Everyone (8:01 AM)

Sounds wonderful. Thank you

Mark Goldstein to Everyone (8:04 AM)

Local First Arizona has launched their Arizona Economic Recovery Center aims to enable more qualified Arizona cities, towns, counties, and nonprofits to win competitive federal, state, and foundation grants. Visit <https://localfirstaz.com/economic-recovery-center> for more info and to sign up for news/notices.

Nicole Umayam to Everyone (8:05 AM)

Connect Arizona EBB info page: <https://connect-arizona.com/ebb>

Mala Muralidharan to Everyone (8:05 AM)

Yeah Cindy !

Yeah Illana!

Karen Hewitt to Everyone (8:07 AM)

Nichole & Team - Great Job!

Mauricio Orozco to Everyone (8:08 AM)

Great Job!

Tracey Beal to Everyone (8:08 AM)

Very proud of the team!

Debbie Kovesdy to Everyone (8:12 AM)

We'll help you get them out to schools and our store communities

Totally awesome!

Joy Whiting to Everyone (8:14 AM)

Tracey, can I just send the link to the school districts in Apache County?

Tracey Beal to Everyone (8:15 AM)

Sure, Joy!

Nicole Umayam to Everyone (8:17 AM)

It takes a village! This is a great group of doers

Ilana-Common Sense Media to Everyone (8:17 AM)

Thank you, Debbie! That would be great!

Holly Henley to Everyone (8:19 AM)

Thank you to AZBSN for bringing us all together!

Tracey Beal to Everyone (8:20 AM)

It has been great to have AZBSN bring us all together to make a difference!

Lawrie Prickett to Everyone (8:21 AM)

Please do put that link in the chat.

Debbie Kovesdy to Everyone (8:21 AM)

We are talking to Amphi in coordinating courses so we can bring ebb into those discussions as well

Linnea Evans to Everyone (8:21 AM)

We work with AZChow - the AZ association of community health workers, as well as a bunch of community partners tied to federally qualified health centers, churches, etc. We can share through those networks if helpful.

Tracey Beal to Everyone (8:21 AM)

Great, Debbie!

Mala Muralidharan to Everyone (8:21 AM)

New Date for thr FCC webinar Wed, Apr 28, 2021 12:00 PM - 1:00 PM MST

Mark Goldstein to Everyone (8:23 AM)

The National Urban League released the Lewis Latimer Plan for Digital Equity and Inclusion, a collaborative work aimed at addressing the digital divide downloadable at

https://nul.org/sites/default/files/2021-04/NUL%20LL%20DEIA%20041421%20Latimer%20Plan_vFINAL_1136AM.pdf

Mala Muralidharan to Everyone (8:23 AM)

The Emergency Broadband Benefit Program <https://getemergencybroadband.org>

Tracey Beal to Everyone (8:24 AM)

Yes, Mauricio! Absolutely!

Federal homeless program

Ryan Kelly to Everyone (8:24 AM)

Great idea, Mauricio.

Tracey Beal to Everyone (8:25 AM)

Totally agree, Mauricio!

Paul Ross to Everyone (8:26 AM)

The School Superintendents would be able to route the information to the McKinney Vento liaisons or the Nutrition Directors.

Ilana-Common Sense Media to Everyone (8:26 AM)

I would like to suggest that once we send the toolkit to everyone on this call, that you send it out to your connections to make this go faster.

Tracey Beal to Everyone (8:27 AM)

Yes, Ilana! If we network our networks we can get information out!

Cindy Hogan to Everyone (8:27 AM)

I agree, Ilana!

Karen Hewitt to Everyone (8:28 AM)

Great Point Paul also AABSO can get the word out.

Debbie Kovesdy to Everyone (8:30 AM)

Great idea!

Zechariah Crook to Everyone (8:33 AM)

Hi Tracey & Team, excellent work on EBB thus far. I am new to this group and this meeting. There has been so much Vaccine and Stimulus coverage on local news through National companies like Fox, ABC, etc... Especially social media. Is there a social media distribution plan for Arizona post tool kit release?

Tracy Rexroat to Everyone (8:34 AM)

Planning on it- Thank you!

Mauricio Orozco to Everyone (8:34 AM)

Statewide enrollment assistance navigators . <https://coveraz.org/connector/>

Debbie Kovesdy to Everyone (8:34 AM)

Thanks for facilitating so well too Steve!

Looking forward to continuing your great work
