ATIC Board Meeting Minutes

January 9, 2019

1. Administrative

1.1. Self-Introductions

See the list of attendees above.

1.2. Modifications to and Acceptance of Agenda

MOTION: To accept the Agenda as submitted.

MOVE: Ron Schott
SECOND: Oris Friesen
Passed Unanimously

1.3. Acceptance of Minutes from November 14, 2018 Meeting

MOTION: To accept the Minutes of the November 14, 2018 as submitted.

MOVE: Ron Schott
SECOND: Jay Schlum
Passed Unanimously

1.4. Treasurer's Report

Ron Schott, Treasurer reported that current funds on hand as of January 7, 2019 total approximately \$25,708 with recent expenses. Ron circulated Desert Financial Credit Union reports with account and transaction details for Board reference which are included at the back of these Minutes.

Without any current monetary sponsors, sustainability remains a concern. The Executive Committee committed to review and strategize accordingly.

1.5. ATIC Board Membership

1.5.1. Nominations and Election of Board Members

ATIC Board Member Jeff Sobotka of T-Mobile has recently moved to the Arizona Commerce Authority (ACA). He expressed his strong interest in continuing to serve on the Board.

MOTION: To reaffirm Jeff Sobotka as an ATIC Board Member representing the ACA.

MOVE: Mark Goldstein
SECOND: Steve Peters
Passed Unanimously

Karen (Knight) Miller, Business Development Manager, Zayo Group has recently been attending ATIC Board meetings and expressed her interest in serving on the Board.

MOTION: Elect Karen Miller as an ATIC Board Member representing Zayo Group.

MOVE: Mark Goldstein
SECOND: Jay Schlum
Passed Unanimously

We continue to need to expand participation with direct State of Arizona representation, as well as focus on rural and native stakeholder representation especially from the economic development community, and representatives from municipal, county, and higher education CIOs, as well as stronger broadband industry participation going forward.

Jay Schlum, ATIC Chairman has met individually with select current Board members to garner their opinions about ATIC in the current environment and gauge their interest in actively participating. Now that the redesigned website has launched it is timely for the Chair to lead in engaging new Board prospects. Jay has drafted a cover letter template to personalize when reaching out to a number of specific new parties seeking their active involvement in ATIC and consideration of a Board role. Potential Board prospects discussed include:

- Michael Sherman, Sun Corridor Network
- Morgan Reed, Arizona CIO (Karen Ziegler/ADOA could proxy)
- Satish Pattisapu, Arizona Department of Education CIO (Milan Eaton/ADE could proxy)
- Ken Dewitt, Navajo County CIO
- John Lucas, Community Broadband Advocates (former Graham County CIO)
- Jim Simms, One Random Act (ORAct) LLC
- Michael Britt, Copper Dome Consulting (former State of Arizona FirstNet Manager)
- Ron Drake, County Administrator, La Paz County (Former Avondale Mayor & Qwest)
- Wendy Quarles Bridges, Economic Development Coordinator, City of Prescott
- Lev Gonick, ASU CIO or Sethuraman (Panch) Panchanathan, EVP, ASU Knowledge Enterprise & Chief Research and Innovation Officer, ASU
- Mark Jeffries, Frontier Communications
- Toni (Morales) Broberg, Director, External & Legislative Affairs, AT&T
- Rachel Aja, Manager, Government and Regulatory Affairs, Cox Communications (Note: Chris Poole has moved from SRP to Cox as Director of Operations)
- Vincent Nicholes, T-Mobile (Recommended by Jeff Sobotka & Matt Dostal)
- Omar Alam, ViaSat (satellite connectivity/backhaul)
- Tom Belshe, Deputy Director, League of Arizona Cities & Towns
- Craig Sullivan, Executive Director, County Supervisors Association of Arizona
- Teresa Wright, Navajo Nation
- Mark DiBlasi or Nancy Caulbaugh, Mojave County Education Consortium
- Additional telecom provider & rural economic development representation

It was also discussed that a number of currently inactive Board members should be approached to relinquish their Board seats if not committed to actively participate going forward. Mark will work with the Executive Committee to identify and communicate with them.

1.6. Review of Outstanding Action Items as Documented in November 14, 2018 Minutes

None.

2. Informational Presentations

2.1. None Scheduled

3. Activity Reports

3.1 Arizona Broadband Strategic Plan & FirstNet (Karen Ziegler, Mark Goldstein)

Karen Ziegler, Arizona FirstNet Project Manager (<https://azfirstnet.az.gov/>) was not in attendance but Mark Goldstein has had recent conversations and provided brief updates. A working team led by ACA has been following up on the Arizona Broadband Strategic Plan and has provided a report with recommendations to the Governor's Office for further action. When the report is finalized, it is expected to become public. Karen expects that rural broadband issues will be mentioned in the Governor's State of the State and reflected in his proposed budget due later in January. The most recently available public document remains the Arizona Broadband Strategic Plan issued in February 2018 which remains available at https://azfirstnet.az.gov/sites/default/files/media/AZ%20Broadband%20Strategic%20Plan_FIN_AL.pdf. ATIC remains keenly interested in helping the state undertake initiatives and provide leadership to facilitate broadband development.

As of the State Inauguration this past Monday, Arizona has a new Secretary of State, Katie Hobbs, who has State Libraries with Holly Henley and Mala Muralidharan under her purview. And Kathy Hoffman became Superintendent of Public Instruction with Satish Pattisapu and Milan Eaton under her. There were discussions of how ATIC builds our relationships with these new leaders and involve them in our initiatives.

3.2 Arizona Broadband Stakeholder Network (Steve Peters)

ATIC's Arizona Broadband Stakeholder Network was formed last year to facilitate discussion between key state government officials and other stakeholders, follow up on the State broadband rural focus groups and strategic plan issuance for leveraging State/ACC funding, assist with leveraging E-rate funding, and developing public private partnerships.

Steve has put up a preliminary Arizona Broadband Stakeholder Network website at <https://www.arizonatele.org/about-stakeholder-network.html> for group resource sharing and planning purposes. After a period of limited activity, he will now begin to ramp up leadership engagement and planning.

The next action is to develop and hold a broadband stakeholder roundtable, something ATIC had done periodically in the past. There remain issues as to how we would acquire names and contact vectors of potential roundtable attendees and future roundtable participants. Another leadership team meeting will be held to begin to address details and planning. Henry Goldberg volunteered to help Steve with outreach and garnering responses. ATIC and GAZEL should cooperate on merging their respective mailing lists into a common CRM platform to enable, manage, and streamline stakeholder communication.

A separate means of vendor engagement by ATIC should be developed in parallel and will be on the agenda for future ATIC consideration and action.

3.3 Rural Community Outreach (All)

Mark Goldstein reported on Bill Bolin's recent white paper and report to ATIC regarding rural communities in Arizona and his observations and recommendations for rural broadband success. Bill also recommended significant ATIC transformations in organizational structure and practices as documented in the October 10, 2018 minutes, accompanied there by Bill's associated slide deck. Bill recommended that ATIC become a membership organization charging dues, event fees, and otherwise raising funds, allowing the hiring of an Executive Director and support staff functions while simultaneously becoming more active in developing and implementing projects, seeking and managing grants, producing RFPs, etc.

The general feeling as expressed by participating Board members was that we are not in a strong enough current position to enact some of these suggestions. Certainly, we could and should entertain and undertake some of the projects that require less heavy lifting, such as grant identification and brokering by utilizing Karen Ziegler's ADOA capabilities, while going forward as a volunteer organization. Jay Schlum suggested that Board Members and Associates should offer suggestions on improving our engagement and impact.

The Executive Committee committed to undertake further discussions of Bill's suggested pathways and report back to the Board, engaging in productive dialogue and consideration.

3.4 K12/GAZeL Education Report (Steve Peters, Nan Williams)

The Arizona Technology in Education Association (AzTEA) will hold their "IT & C&I Leadership Symposium: Building Bridges for Student Learning" event on March 8th at Dysart Unified School District Office in Surprise. See <http://aztea.org/> for details and registration.

GAZeL is planning for a conference on disruptive learning later this year at a Tucson venue TBD including a planning exercise for schools and district implementation and a closing reception. Science Foundation Arizona and/or Helios Project may support.

Steve will explore partnering with Dennis Harper of GenYes (<https://www.genyes.org/>) regarding working with banks on Community Reinvestment Act (CRA) which has evolved to allow funding for schools with the goal of their supporting broadband buildouts for nonprofits and schools. Mark Goldstein completed an impact study for Cisco Foundation of the 9 educational technology grants they gave out in the Yuma area.

Steve also met with Adonis Trujillo of Microsoft who is interested in our initiatives and has some funding available. Microsoft has a number of projects with the University of Arizona including data center activities and recently purchased a large track of land in Goodyear presumably for data center operations.

The Arizona Technology Council's Arizona SciTech Foundation has been renamed as the SciTech Institute (<http://scitechinstitute.org/>). Cisco has recently donated \$150,000 to them to support the High School Chief Science Officers (CSO) program (<http://scitechinstitute.org/programs/chief-science-officers/>).

3.4.1 GAZeL, ATIC, and AzTEA have established a project to explore interest, feasibility and a strategy to develop a statewide partnership and funding mechanism with Labster, the Virtual Laboratory Simulation Education Group based in Denmark, and K-12 schools, universities and community colleges to provide appropriate Labster virtual online lab modules for all educational institutions in Arizona for free or at a low cost. Sam Butcher of Labster visited Arizona last June among other Labster higher ed visits here. A demonstration project in some rural Arizona schools remains a priority. The feasibility of forming a consortium to provide Labster curricula throughout all of Arizona is being explored. Steve has constructed a working website for this project at <https://gazel-labster.weebly.com/> and will shortly restart efforts to advance.

Greater Arizona eLearning (GAZeL, <http://www.gazel.org/>) has mostly completed its transition into a 501(c)(3) non-profit by reforming under the Arizona Telecom & Information Institute (ATI Institute) corporate shell. The repurposed organization would remain an option for managing future broadband grant opportunities in conjunction with ATIC. The GAZeL Board has been developing their priorities and adopted plans for the Innovative Learning Collaborative for 2019 including:

- Labster Virtual Laboratory Simulations Consortium (In partnership with ATIC)
- Generation Yes Computer Science and IT Training programs
- Collaborative Professional Development
- Innovative Learning Conference: Disruptive Innovative Learning: Strategic Planning for Innovation, Technology and Collaboration for our Arizona K-12 Schools, Universities, Community Colleges, Libraries and Community Organizations
- Open Education Resources Network
- Innovation Labs/Makerspaces Network
- State and Local Innovative Learning Plans
- Arizona Broadband Stakeholder Network (In partnership with ATIC)
- Federal Reserve Community Reinvestment Act (CRA) Digital Equity/Digital Divide funding opportunities (In partnership with ATIC)

3.5 Arizona State Library (Holly Henley, Mala Muralidharan)

Holly will attend the ALA Winter conference in Seattle in January and will be on a panel to represent “digital inclusion” work, such as the mobile hot-spot lending program. Last year 9 Arizona libraries including 3 tribal libraries participated with plans for 12 libraries this year.

State Library helped facilitate the Navajo-Gila Counties Consortium of schools and libraries, as well as Apache, Santa Cruz, and Yavapai County consortiums. Based on difficulties with approval, Navajo and Gila Counties may refile separately. The e-rate filing deadline for this cycle is March 27 and Arizona seeks to optimize our utilization of special ACC and ADE funds leveraging the FCC special infrastructure program expiring this year. Library’s focus this year was Category 2 funding. Mala’s detailed e-rate report follows:

Mala's E-rate Report for the ATIC Board MEETING on January 9th

Application Window the Funding Year (FY) 2019 FCC Form 471 application filing window will open on Wednesday, January 16, 2019, at 12:00 noon EST and will close on Wednesday, March 27, 2019, at 11:59 p.m. EDT.

Update to Online Schools' and Libraries' Profile: EPC profiles will lock on January 15, 2019, at 11:59 p.m. EST. You will not be able to make changes to your EPC profile after that date. Account and User Rights: This is the time to log in, review and update and/or assign user rights for persons who will need access for FY2019 to the applicant's account.

Master Contracts – Category 1: State Master Contracts are available for applicants for Internet Connectivity

Master Contracts – Category 2: Master Contracts for Internal Connections are available only through Mohave Educational Services Cooperative. They run only up to Dec 2019. Mala is working with them to get the new contracts in place. They have assured that it will be in place by March 1.

The Navajo-Gila application for 2017 – Still awaiting decision letter from FCC. FCC now closed due to Government shut-down. USAC is working. Many applications still awaiting decisions.

Transition to a new business process USAC has transitioned to a new vendor (Maximus in Texas) from Jan 1st 2019, to support E-rate operations. All Program Integrity review activities, including program integrity assurance (PIA), appeals, funding commitment waves and payments, has been transition.

State Library support: This year applicants requesting Category 2 funding are being supported by State Library to do Network assessment. Many reasons why Libraries are not applying for Cat 2.

Broadband and Digital Divide: Like to share this interesting study - Broadband Internet Access and the Digital Divide: Federal Assistance Programs - October 24, 2001 – January 9, 2019. See <https://www.everycrsreport.com/reports/RL30719.html>

State Library has a network assessment tool that will be sent to the libraries. Jim Simms expressed interest in possibly providing some expertise for these Category 2 applications by travelling to some of these rural libraries. Mala is working on a paper about Category 2 continuation beyond 2020 and another about switching vendor during an award application period. State Library personnel continue to visit libraries around the State to hold workshops and help with technology assessments. State Library is also working with EducationSuperHighway (<https://www.educationsuperhighway.org/>) on webinars for broadband in rural areas and access to their tools, templates, etc. that explain importance of broadband in rural areas.

A schedule of upcoming events of possible interest to ATIC Board members and Associates is at <https://azlibrary.gov/all-events>, the State of Arizona Research Library Blog is at <https://statelibraryofarizona.wordpress.com/>, and the State Library of Arizona on Facebook is at <https://www.facebook.com/StateLibAZ>

3.6 Telehealth (Janet Major)

Janet mentioned that the U of A will have a Telehealth Pavilion at the Metropolitan Education Commission's Key to Employment for the 21st Century: Industry, Technology, Education & Career Symposium & Expo in Tucson on February 7th. Details <http://www.metedu.org/k2e-registration-form/>.

Janet recommended that GAZEL become a member of the U.S. Distance Learning Association (USDLA, <https://usdla.org/>) at a cost of \$500 annually.

3.7 Government Affairs (Mike Keeling, Mark Goldstein)

Mike Keeling reported on this year's telehealth bill that would open all services for telemedicine participation with appropriate reimbursement and include ACHSS. Mike and Mark also expect more bills regarding 5G wireless facilities siting and deployment.

The Arizona Technology Council's (AZTC) Public Policy Guide for 2019 has been published including significant ATIC contributions to its broadband sections and can be downloaded at <https://www.aztechcouncil.org/arizona-technology-council-public-policy-guide/>.

Beyond the recommendations found in the AZTC Guide, ATIC would additionally like to see the Arizona Corporation Commission (ACC) expand the use of AUSF funds beyond the e-rate matching program that is sunseting to other rural broadband purposes and for the Arizona Department of Education's broadband fund to be refreshed with additional \$ from year to year.

3.8 ATI Institute (Oris Friesen)

GAZeL is proceeding with the renaming and repurposing of ATI Institute to e-learning purposes under its 501(c)(3) framework. ATI Institute has disbursed to ATIC repayment of its \$2K loan and approx. \$1.2K in residual funds as noted in the Treasurer's report above. A \$2K sponsorship from Ted Kraver will remain with the transitioned entity.

The repurposed organization would remain an option for managing future broadband grant opportunities in conjunction with ATIC, as would the Arizona Technology Council Foundation and other potential partners.

4 Information and Action Plans

4.1 ATIC New Website Status & Outlook (All)

Steve Peters prototyped a replacement ATIC website on the Weebly platform. The completed website refresh was completed and cutover to which a number of members contributed ideas and content. You can find the relaunched site at the normal URL <http://www.arizonatele.org/>.

Some background information seems to have gotten lost in the conversion from Weebly's subdomain to the normal ATIC URL which Steve has committed to restore. Mark also has committed to building out the repository of ATIC reference and historical documents.

4.2 ATIC Domains, Mailing List & CRM (All)

Mark has current credentials for the GoDaddy account holding ATIC-related domain names and can now modify the records including contact information and redirection of DNS as needed.

Mark reiterated that we need to rebuild our mailing list likely in cooperation with GAZeL and has begun discussions with Steve Peters on how best to accomplish this. Mark is currently utilizing SendinBlue (<https://www.sendinblue.com/>) for publishing his monthly Arizona Technology and Economic Development Events calendar.

4.3 New Business or Motion Considerations (All)

None this month.

5 Upcoming Meetings/Events Attended

None this month.

6 Announcements
