

OUR MISSION

We believe all children and their families, regardless of their economic status, need to be computer literate and have equal access to technology.

Our Technology Assistance Program recycles and refurbishes used computers and delivers them to families in need. C2K also provides education, training and technical support to help students achieve success.

TECHNOLOGY ASSISTANCE PROGRAM

Refurbished Computers for low income families at affordable prices.

Our systems come with a **one-year free warranty**. After the first year, **C2K** provides lifetime technical support to our recipient families for only \$20 a service call. If we cannot fix the system, we replace the system with a newer model, ensuring the family stays connected for years to come.

More than just a computer, **C2K** takes great care in providing valuable educational software and technical support with each system we distribute.

C2K software package includes:

- ✓ Microsoft Software (Word, Excel, PowerPoint, Outlook)
- ✓ My Home Learning Software (games and activities designed for K-12),
- ✓ Adobe Software and additional software.

RECYCLING

C2K believes it's critical that we reduce computer waste, which comprises about 23 million tons of garbage that is generated each year.

Although some of the metals, glass and plastics in many electronics are indeed recyclable, more than 70% ends up in landfills in Asian and West African Countries.

C2K also strongly believes that the estimated 30 to 40 million PCs that are recycled annually, most still in working condition, could be better used by refurbishing them and making them available to the homes in Maricopa County without access to technology.

Recycle Unwanted Electronics (working & non-working):

- Computers, Laptops (APPLE & PCs)
- Monitors (any size)
- Keyboards
- Mice
- Printers
- Copiers/Fax Machines
- Scanners
- Servers
- Routers and Switches
- Televisions
- Radios
- Stereo Equipment
- Speakers
- Cell Phones
- Land Phones
- VCRs, DVRs, Recorders
- Projectors
- Miscellaneous Cords
- Software
- Hardware
- Ink and Toner Cartridges (new)
- Tablets (iPads, Androids, ChromeBooks)

SPECIAL THANKS FOR SUPPORTING OUR MISSION

REFURBISHING

C2K understands the importance of security to our individual and corporate technology donors.

Protecting sensitive data:

Stage 1. Disk sanitation, using **Darik's Boot and Nuke (DBAN)**, a **Defense Security Service** authorized software program, to sanitize all reusable hard drives.

Stage 2. As a **Microsoft Registered Refurbisher**, the next stage of the computer refurbishment process is to load a new Windows Professional operating system, Microsoft Office Suites, Microsoft Security Essential anti-virus software and various other useful software programs. Microsoft Certificates of Authenticity labels are then attached to each computer.

Stage 3. The final stage involves checking the various components, such as memory chips, CD Rom drive, sound and video to make sure everything is in proper working order.

MAKE A DIFFERENCE EASILY C2KSD

Since 2004 our team of sponsors, donors and partners has impacted over 389,000 children and their families in San Diego, Maricopa, and Clark Counties. Thanks to technology donations, we've refurbished computer systems and loaded them with up-to-date operating systems, software and educational programs, and provided them to underprivileged families.

***The key is to recycle, refurbish and respond!
Let's solve this together!***
