Affordable Connectivity Program

Getting Connected Just Got Easier for SNAP and Tribal TANF Clients

Internet and device discounts are available to SNAP and Tribal TANF clients! The Affordable Connectivity Program (ACP) helps many low-income households pay for broadband services and internet-connected devices. The Arizona Department of Economic Security (DES) and its federal partners have recently improved the application approval process to make it even faster and easier for our clients to obtain these discounts. Clients who submit an application through ACP and are determined eligible for SNAP or Tribal TANF can now go directly to a service provider and sign up for discounts.

How to Apply

Once verification is obtained, clients can go directly to their local provider and ask about potential discounts through the ACP! Clients can verify:
- By phone:1-877-384-2575
- Online at Connect Arizona
- Or online through Federal Lifeline National Verification website

Within seconds of submission, it will check to see if the client has an open Arizona SNAP or Tribal TANF case.

Please note that DES staff are unable to assist with an ACP application.

How to Qualify

Here are the ways a household can qualify for the ACP:
- Based on household income (the program has its own income standards)
- Participation of a household member (or their child/dependent) in certain government assistance programs such as SNAP, Medicaid, WIC, or others
- Receipt of a Lifeline Benefit by anyone in the household already

Available Benefits

If a client's household is found eligible for the ACP, they could receive:
- Up to a $30/month discount on their internet service
- Up to a $75/month discount if the client's household is on qualifying Tribal Lands

- A one-time discount of up to $100 for a laptop, tablet, or desktop computer (with a co-payment of more than $10 but less than $50)
- A low-cost service plan that may be fully covered through the ACP
