Disclaimer Notice:

[Steve Peters] 15:02:33 Hey? When we when we're ready. So, Lyle, good to see you.

[Steve Peters] 15:02:33 Glad you're joined us today

[Lyle Ishida] 15:02:35 Hi, Hi, guys today, how's Arizona?

[Lyle Ishida] 15:02:38

How's the weather?

[Steve Peters] 15:02:39

Nice. It's been a little chilly, but you know, relatively speaking, we can't complain a whole lot

[Lyle Ishida] 15:02:46

So you know I'm from Washington, DC. So you know, complaints from Arizona fall on deaf ears with a little bit of

[Steve Peters] 15:02:59

So, John, this might be somebody, and I don't know whether you're gonna there are several things while we're waiting to get started here that I don't know if you want to address some or all of the things that are happening these days.

[Steve Peters] 15:03:13

I know Acp is your big thing. But there's lots of other stuff going on.

[Steve Peters] 15:03:19

There's out the wire line for excuse me getting input regarding security request.

[Steve Peters] 15:03:30

And that there's mapping, and I don't know if you're involved with the mapping at all.

[Lyle Ishida (FCC)] 15:03:34

Yup!

[Steve Peters] 15:03:34

We've had several discussions recently about mapping, so we've got a lot of things that I'd like to chat with you about.

[Lyle Ishida (FCC)] 15:03:37

Not be. Mapping is really big for us.

[Steve Peters] 15:03:44

And again. I don't know what falls under your fairly quick or not, but we'll get to that just a few minutes.

[Steve Peters] 15:03:49

We're gonna start in just a minute. Do you have a timeframe when you have to drop off file

[Lyle Ishida (FCC)] 15:03:51

Alright!

[Lyle Ishida (FCC)] 15:03:54

I am to this my end of my day, and and thank you for everyone else wisely here.

[Steve Peters] 15:03:58

Okay.

[Lyle Ishida (FCC)] 15:04:02

So Steve sends me as part of this, the actual weekly invite, because we had talked earlier and I said, Yeah, you know, when I have time, I'm just gonna sit in, I'd send Steven up name.

[Lyle Ishida (FCC)] 15:04:13

I'm just gonna sit in and listen. I didn't want to talk, but I can. I can.

[Steve Peters] 15:04:17

But that changes, plans.

[Lyle Ishida (FCC)] 15:04:20

I I'm I'm here until I have to cook dinner.

[Lyle Ishida (FCC)] 15:04:26

So I'm the family cook, and don't let my wife hear me stitching her

[Lyle Ishida (FCC)] 15:04:33

But we won't talk about 2 fires. But yeah, so maybe I'm about half an hour or so, but I have to be a mapping update and then separately, since we emailed Steve, I no longer am here just to listen I am also here to talk about a

[Steve Peters] 15:04:40

Okay.

[Lyle Ishida (FCC)] 15:04:53

Chairwoman's visit to Arizona in the next couple of weeks, that we just nailed down since you would you had talked about that.

[Steve Peters] 15:05:03

Cool.

[Lyle Ishida (FCC)] 15:05:05

So I'll give you some details as well, and then we can chat

[Steve Peters] 15:05:07

You've got lots of stuff to tell us

[Lyle Ishida (FCC)] 15:05:09

So, and by all means for all, everyone here in the beautiful state of Arizona.

[Lyle Ishida (FCC)] 15:05:17

Let me put my email in chat

[Steve Peters] 15:05:19

And I'm gonna I'm gonna go ahead and start the meeting here.

[Lyle Ishida (FCC)] 15:05:22

Hmm sure.

[Steve Peters] 15:05:22

In just a second, while, I hope whoops actually

[Steve Peters] 15:05:29

To do this real, quick.

[Steve Peters] 15:05:41

Give me a second. Everybody gotta get organized. Here.

[JONATHAN BOUTILIER] 15:05:45

Sure.

[Steve Peters] 15:05:55

Okay, there, we go.

[Steve Peters] 15:06:08

Alright!

[Steve Peters] 15:06:11

Okay, let's get back to this

[Steve Peters] 15:06:20

Hey? I'm going to share my screen first.

[Mala Muralidharan] 15:06:36

Are you recording

[Steve Peters] 15:06:38

Not yet, but I'm going to any moment

[Steve Peters] 15:06:57

On this computer

[Steve Peters] 15:07:00

Now I'm recording

[Steve Peters] 15:07:12

Okay.

[Steve Peters] 15:07:16

Alrighty! Good afternoon, everybody see, I got it right this time.

[Steve Peters] 15:07:20

It's afternoon, not morning, so lie off. What time is it? There

[Lyle Ishida (FCC)] 15:07:26

It is 507 Pm.

[Heather Floyd] 15:07:29

Bye.

[Steve Peters] 15:07:31

No. So it's definitely time for you to go home are you? Are you?

[Lyle Ishida (FCC)] 15:07:34

I'm working from home.

[Steve Peters] 15:07:37

Are you at home? Okay? Alright. Well, we can introduce you in just a couple of minutes a while.

[Steve Peters] 15:07:43

So we have a very full agenda today. And so I wanna just go ahead and get started here first of all, I don't see.

[Lyle Ishida (FCC)] 15:07:44

Yeah.

[Steve Peters] 15:07:54

I haven't looked yet

[Steve Peters] 15:08:07

Well, I don't see Sandip or Nicole yet, so let's go ahead and get started.

[Steve Peters] 15:08:15

We, we have a special guest today that you, Lyle.

[Lyle Ishida (FCC)] 15:08:19

Oh, my God!

[Steve Peters] 15:08:21

So I'd like to introduce Lyle Ishida, Chief of the Consumer Affairs and Outreach Division with the Consumer & Governmental Affairs Bureau @ the Federal Communications Commission

[Steve Peters] 15:08:28

Which I think you all have heard of at some point or another.

[Steve Peters] 15:08:32

Lots of stuff happening with the Fcc. These days. And so, while if you're not sure tidal has changed, Lyle, I believe you're Chief of the Consumer Affairs and Outreach Division with the Consumer & Governmental Affairs Bureau @ the Federal Communications Commission

[Lyle Ishida (FCC)] 15:08:51

Correct. That's correct.

[Steve Peters] 15:08:54

So we have conversations with Lyle over time, particularly about ACP.

[Steve Peters] 15:09:00

And if anybody knows what's happened on ACP, it's him.

[Lyle Ishida (FCC)] 15:09:04

Okay.

[Steve Peters] 15:09:07

But nonetheless, there's lots of stuff happening with FCC.

[Steve Peters] 15:09:10

We've talked about a lot of things the mapping and the Cyber security issue and so forth.

[Steve Peters] 15:09:19

So I'm gonna just turn it over to Lyle.

[Steve Peters] 15:09:20

Lyle contacted me today. This is was sort of unplanned and so he contacted me today and said, Mind, if I listened in, it's like, Okay, as long as you're listening to me, how about if we get to some updates from you?

[Steve Peters] 15:09:32

So with that mile I'm gonna turn it over to you, and I know you weren't planning to do a major presentation here.

[Steve Peters] 15:09:39

But anyway, I'll leave it to you

[Lyle Ishida (FCC)] 15:09:41

Thank you very much, Stephen. And, by the way, really, I'd appreciate the work and the efforts and the passion that everybody in the spot and this good task force shows like really, it takes it really takes a lot of us working together to get the resource sitting on so just real quick off the top of my head I plan just

[Lyle Ishida (FCC)] 15:10:05

To listen in, because Steve had sent me an invitation.

[Lyle Ishida (FCC)] 15:10:10

I thought, then I got a free afternoon. I'm just gonna just be a fly in the wall here. What's going on in Arizona?

[Lyle Ishida (FCC)] 15:10:14

Here's what we got right now. I just want to lead with mapping.

[Lyle Ishida (FCC)] 15:10:18

Now for those of us working on the deployment side.

[Lyle Ishida (FCC)] 15:10:24

We had asked for corrections earlier on a month to help people articulate changes in front of bead deadlines, but that being said, we are still taking challenges, and I think we will never stop thinking challenges, because some app broadband map will be an ever changing thing right right now what there are no people there will

[Lyle Ishida (FCC)] 15:10:53

be people. At some point, people who do not have access to brought that where there are people without access to Broadway there will be people with access to broadband, and so we will be forever changing the maps. Again.

[Lyle Ishida (FCC)] 15:11:05

The maps. Accuracy has everything to do with eligibility for Usda, for all the other big Grant programs.

[Corey Christians] 15:11:06

Hmm.

[Lyle Ishida (FCC)] 15:11:15

For deployment. That community is built for deployment.

[Lyle Ishida (FCC)] 15:11:20

So please, by all means chat. Did you challenge our maps?

[Lyle Ishida (FCC)] 15:11:28

And I have an offer. If you'll want, I can get you one of our maps specialists to give you 10 min at any time.

[Lyle Ishida (FCC)] 15:11:35

If you give me 2 weeks notice, and she's a great presenter.

[Lyle Ishida (FCC)] 15:11:39

She shares her screen. She will teach you how to challenge maps.

[Lyle Ishida (FCC)] 15:11:46

And now we're all Johnny at Janie Apple C, and we get spread word to everybody.

[Lyle Ishida (FCC)] 15:11:51

In Arizona, and beyond new subject. So today we confirmed that this is, for this is, by the way, we're all friends.

[Lyle Ishida (FCC)] 15:12:06

This is not for attribution, or for the press, or anybody else.

[Lyle Ishida (FCC)] 15:12:09

Right. This is only among us. We confirm that the Chairwoman is going to be in Arizona on February fourteenth.

[Lyle Ishida (FCC)] 15:12:19

Here's the plan that I know of on February fourteenth, somewhere around tennis, she'll be doing a press conference at the Mayor of Phoenix.

[Lyle Ishida (FCC)] 15:12:33

Followed by a trade Acp. Train, the trainer for librarians.

[Lyle Ishida (FCC)] 15:12:42

Formed up, from the Phoenix area to help consumers understand acp, and also how to enroll, so that's gonna we're gonna to me like me and my teammate are gonna run that after the press conference, the chairwoman and the Mayor will take in the first 5 or 10

[Lyle Ishida (FCC)] 15:13:03

Minutes of it. Then the chairwoman has a 2 different one or 2 different tribal library visits the tribal library, portfolio is really important to the children right now.

[Lyle Ishida (FCC)] 15:13:15

Separately. Then, after we

[Steve Peters] 15:13:17

Excuse me, I'll our people welcome to attend that, or is it close

[Lyle Ishida (FCC)] 15:13:22

That is non public. So both things are non-public.

[Steve Peters] 15:13:24

Okay.

[Lyle Ishida (FCC)] 15:13:30

This is just information only because you guys are zoning separately on the public side of the house.

[Steve Peters] 15:13:32

Okay.

[Lyle Ishida (FCC)] 15:13:36

We are. We just found this out like just like an hour ago.

[Lyle Ishida (FCC)] 15:13:40

So we are going to try to use your taxpayer dollars that you fly us around wisely.

[Lyle Ishida (FCC)] 15:13:45

We are going to probably spend an afternoon in Phoenix, and we're kicking around wholeing an Acp enrollment event in meeting Room or Hilton Garden in, or something like that, where we're gonna get people who are eligible and not enrolled and help them to roll

[Lyle Ishida (FCC)] 15:14:08

Directly with a bank of computers that we're gonna bring from DC, so

[Lyle Ishida (FCC)] 15:14:14

My ask is, since we're here, and I'm asking if anybody wants to work together on this good different parts that we can play together.

[Lyle Ishida (FCC)] 15:14:24

I, am going to bring the computer in the trainer and the room.

[Lyle Ishida (FCC)] 15:14:30

If we can work together, with our contacts to get low income Acp, qualified people, understanding that we're gonna be there I'll run a press release out of Fcc and we'll have the chairwoman and then here pitch this on the fourteenth but I would I don't

[Lyle Ishida (FCC)] 15:14:52

I wanna since I'm there. For a couple of days.

[Lyle Ishida (FCC)] 15:14:54

I wanna serve the public, my public. So the one if we don't do an enrollment event, I am also open to to an Acp train.

[Lyle Ishida (FCC)] 15:15:06

The trainer event like this group. I'm happy to sit you down in the room and show you how the enrollment process works.

[Lyle Ishida (FCC)] 15:15:14

Talk about a train, the trainer, and turn you into Janie and Johnny Apple seeds for the seat of Arizona.

[Lyle Ishida (FCC)] 15:15:22

So that's the fourteenth. On in the afternoon.

[Lyle Ishida (FCC)] 15:15:25

We're thinking because of working for consumers, of going 4 to 8 pm.

[Lyle Ishida (FCC)] 15:15:33

In Phoenix, said, Look, location! I can lock down, probably in next 2 days, and then separately.

[Lyle Ishida (FCC)] 15:15:40

We are going to stay on the fifteenth to and go into Tucson right now.

[Lyle Ishida (FCC)] 15:15:47

We have a a scheduling interest from the Tucson Mayor's office to have a non public meeting.

[Lyle Ishida (FCC)] 15:15:57

I am thinking about pitching them to the same thing.

[JONATHAN BOUTILIER] 15:15:58

Yup!

[Lyle Ishida (FCC)] 15:16:01

A press conference on the front end except the chair. One would be there to be just Lyle, and then a train.

[Lyle Ishida (FCC)] 15:16:08

The trainer for Tucson, sitting employees who work with people who are low income, followed by a public facing enrollment or I'll awareness or train the trainer event in Tucson, for which, again, I have the means to get a room.

[JONATHAN BOUTILIER] 15:16:09

Sure.

[Lyle Ishida (FCC)] 15:16:28

I just. I'm not quite sure yet. This is just an hour too how?

[Lyle Ishida (FCC)] 15:16:33

Who I can reach out to, to fill the room, and to be our on the ground partners.

[Lyle Ishida (FCC)] 15:16:37

So that's what I got. I'm gonna stop here because I'm talking about Arizona.

[Lyle Ishida (FCC)] 15:16:42

Do you have any questions, thoughts or suggestions for the guy from DC.

[Lyle Ishida (FCC)] 15:16:47

Who's going to have to land in Arizona in a couple of weeks

[Steve Peters] 15:16:50

So we had some. Paul, did you have a question

[Paul Ross] 15:16:55

Yeah, I had a suggestion is talked about using a hotel, for instance, and and when we're talking about low income folks travel on access to travel, to be able to get to where they need to be is going to be extremely difficult within Phoenix we know, there are communities areas where that we've got a lot

[Lyle Ishida (FCC)] 15:17:08

Okay.

[Paul Ross] 15:17:13

of low income people. So I'm thinking, and the potential applicants for Acp is not utilizing us a hotel, but maybe look at a one of the high schools in the high school school district here where they have a lot of parking available and I have facilities.

[Paul Ross] 15:17:32

So maybe that might be a better option rather than a hotel.

[Lyle Ishida (FCC)] 15:17:34

Hi, yeah, I'm okay. I I'm not not the hotel.

[Lyle Ishida (FCC)] 15:17:38

The only reason we use these hotels is because it's logistically easier when you're on a short time.

[Lyle Ishida (FCC)] 15:17:44

Frame. Right? I can just contract out a room and do it.

[Lyle Ishida (FCC)] 15:17:47

However, in areas that you know locally, which I don't, cause, it's submitted to me right when I look at Arizona.

[Lyle Ishida (FCC)] 15:17:56

But if you know of somebody who can host us to send me a note, who am happy to reach out, and because we were pretty willing to, we would have been willing to pay the guilt and guardian for a meeting room we're obviously ready to pay for room rental for whoever's in the

[Lyle Ishida (FCC)] 15:18:20

Neighborhood. If there's a boys and girls club, if there's a

[Paul Ross] 15:18:23

And I can. I and I can make some queries.

[Paul Ross] 15:18:26

I work with Phoenix College, so I can make some queries with my all my college president tomorrow. On this

[Lyle Ishida (FCC)] 15:18:31

I love it. You have my email address here, if not, we'll put this in again.

[Lyle Ishida (FCC)] 15:18:37

And so the the schedule is Phoenix. In the afternoon, on the fourteenth, Tucson in the afternoon, on a fifteenth

[Steve Peters] 15:18:48

Via? Do you have lead entities that are working with you on this

[KARLA MORALES] 15:18:48

Well.

[Lyle Ishida (FCC)] 15:18:52

Not. This is Joe like an hour old.

[Steve Peters] 15:18:55

Okay, so let me let me suggest this to you, while, since we can't, we can't take the whole meeting.

[Steve Peters] 15:19:01

Talking about this, but perhaps we can schedule a separate meeting of this group as early as tomorrow or the next day, and really help you to connect with a lot of folks.

[Lyle Ishida (FCC)] 15:19:11

I brought that I would really love to do that. Hold on just 1 s tomorrow.

[Steve Peters] 15:19:12

If you would like to do that.

[Lyle Ishida (FCC)] 15:19:22

Same time tomorrow. What are you? 2 or 3 h in back of us?

[Lyle Ishida (FCC)] 15:19:30

What time is it? There now.

[Steve Peters] 15:19:30

It's 3, 19. Here.

[Lyle Ishida (FCC)] 15:19:35

So would you guys be available at about 1 30 Arizona time

[Steve Peters] 15:19:41

Let me look at my calendar

[Lyle Ishida (FCC)] 15:19:44

Yep, not this same time on Wednesday works for me.

[Lyle Ishida (FCC)] 15:19:49

It's just Tuesday, late afternoon, I turn into gymnastics dead

[JONATHAN BOUTILIER] 15:19:55

Okay.

[Ilana Lowery] 15:19:59

Can I just pop in really quick cause? I don't know.

[Steve Peters] 15:20:02

Sure, Lena. No.

[Ilana Lowery] 15:20:04

I'll realize this, and you mentioned the fourteenth.

[Ilana Lowery] 15:20:07

With all this happening with Jessica and everything. These dates are really problematic, because of the super bowl which is, I mean, if there I I know it'll be over by then.

[Lyle Ishida (FCC)] 15:20:13

Yes.

[Ilana Lowery] 15:20:18

But as far as like

[Lyle Ishida (FCC)] 15:20:19

We can't find a hotel right now. I mean, I can't find the hotel, but the government ring.

[Ilana Lowery] 15:20:21

Yeah, exactly. Exactly.

[Lyle Ishida (FCC)] 15:20:23

I am. I know this, but I I know on the total vote when it comes to scheduling, is

[KARLA MORALES] 15:20:33

Yeah in mile. Maybe maybe tomorrow, when you meet with the rest of us, it's better.

[KARLA MORALES] 15:20:38

But to find the the the needs, because I think, for example, I know we have plenty of space, that the Arizona Technology Council Office in the Phoenix area.

[KARLA MORALES] 15:20:47

But I wanna make sure that I have the needs for everything.

[KARLA MORALES] 15:20:50

The space needs that you have. I think I should. So I'll email you separately to know, because I can help in Phoenix and 2 C.

[KARLA MORALES] 15:20:56

As far as space is concerned, but I'd like to know a little bit more.

[KARLA MORALES] 15:21:01

Of what those needs are

[Lyle Ishida (FCC)] 15:21:01

Yeah, absolutely.

[Steve Peters] 15:21:03

So the other, the other thing, Lyle, is Paul Ross, who you just who was just talking a few minutes ago, and Paul Rio.

[Steve Peters] 15:21:12

So auto has a off the a great conference center.

[Steve Peters] 15:21:18

We've used it many times, and I believe that if we have somebody like you who co-sponsors, there's no charge for that

[Lyle Ishida (FCC)] 15:21:25

So I'm really excited about a trip. Yeah, I think also, thank you for the help on venues.

[Lyle Ishida (FCC)] 15:21:33

I would also like us next time before we meet. I have some contacts in Arizona, but I really wanna focus on getting the people to the event.

[Lyle Ishida (FCC)] 15:21:43

I want to help, so there's no we've done events.

[Heather Floyd] 15:21:46

Okay.

[Lyle Ishida (FCC)] 15:21:49

There's nothing better than to have low income, Auntie.

[Lyle Ishida (FCC)] 15:21:53

Come on in, no one. Come, uncle, and then 20 min, that's all it took for me to get essentially free.

[Lyle Ishida (FCC)] 15:22:01

Broadband. What the heck right? And they're skipping out of the the the, the the enrollment click.

[Lyle Ishida (FCC)] 15:22:10

Each of you is invited to be in, to sit in help, to to enjoy the fellowship of an enrollment planet by all means.

[Lyle Ishida (FCC)] 15:22:21

So I wanna make sure that we get the right people there, that's all.

[Lyle Ishida (FCC)] 15:22:24

And I don't want to. Now. I don't wanna book like this meeting.

[Lyle Ishida (FCC)] 15:22:28

So I'm gonna old fire with just that until we have a follow on meeting Steve.

[Lyle Ishida (FCC)] 15:22:33

And I'm well. I'm I'm my schedule is yours, except tomorrow afternoon.

[Lyle Ishida (FCC)] 15:22:37

I'm kinda tight, but Wednesday of same time ago, and put the rest you thinking about how we can work together.

[Steve Peters] 15:22:42

Well, see?

[Lyle Ishida (FCC)] 15:22:45

I thank you very much. I look forward to this

[Steve Peters] 15:22:49

So while can we tentative? We schedule Wednesday afternoon

[Lyle Ishida (FCC)] 15:22:53

Exact same time. Yes.

[Steve Peters] 15:22:55

The same time. Good for you. So 30'clock on Wednesday

[Lyle Ishida (FCC)] 15:23:03

And

[Ilana Lowery] 15:23:03

That's the day of the Digital Equity Summit.

[Lyle Ishida (FCC)] 15:23:05

Oh! That's a good summit! And and that's also those days of a a, a a banquet there!

[Steve Peters] 15:23:08

Oh, yeah. Whoops!

[Ilana Lowery] 15:23:13

Scale event yep.

[Lyle Ishida (FCC)] 15:23:14

No.

[Steve Peters] 15:23:15

Yeah, so that's good. Didn't have it on my calendar.

[Steve Peters] 15:23:21

So tomorrow.

[Steve Peters] 15:23:26

Tuesday. I'm sorry. Live, did you say?

[Steve Peters] 15:23:29

Tomorrow afternoon, the same time

[Lyle Ishida (FCC)] 15:23:29

Laura? One. Yeah, one, I can't do the same time, cause I mess with that.

[Steve Peters] 15:23:33

Okay.

[Lyle Ishida (FCC)] 15:23:36

If you have, like a 1, 31, 30 to 2, 30 block, not the whole hour, but half an hour. I think we can do it

[Steve Peters] 15:23:44

We can block an hour, if that's what it takes to get it done.

[Lyle Ishida (FCC)] 15:23:48

Okay.

[Steve Peters] 15:23:48

So by 1, 30 tomorrow.

[Steve Peters] 15:23:54

Okay.

[Lyle Ishida (FCC)] 15:23:55

Beautiful.

[Oris Friesen] 15:23:55

Whose time? Which time are you talking about, Steve? Yeah.

[KARLA MORALES] 15:23:58

Yeah. Arizona, prime or

[Lyle Ishida (FCC)] 15:24:00

1, 30, Arizona time. Thank you for that.

[Lyle Ishida (FCC)] 15:24:02

Right. Thank you for that. 3 30 Eastern time

[Ilana Lowery] 15:24:05

So, Steve, are you sending out an invite for people who are interested in joining that?

[Ilana Lowery] 15:24:10

Okay. Thank you.

[Steve Peters] 15:24:10

Yes, I will. Since this meeting is over, I will get that out

[Lyle Ishida (FCC)] 15:24:11

Beautiful.

[Lyle Ishida (FCC)] 15:24:15

So separately. I don't want to pull back this last item as of of updates.

[Lyle Ishida (FCC)] 15:24:21

We just close the deadline for outreach grants, so we are not evaluating outreach grant proposals.

[Lyle Ishida (FCC)] 15:24:30

They come into flavors, one to the outreach transferred to general public, and one to do tribal outreach for for how?

[Lyle Ishida (FCC)] 15:24:39

For residents of travel lands. We anticipate to have in announcement out for grantees.

[Lyle Ishida (FCC)] 15:24:50

Probably no later than mid-march. It's a really short timeline.

[Lyle Ishida (FCC)] 15:24:55

So I got my entire division working on pre screening and Strads applications to hear plentiful.

[Lyle Ishida (FCC)] 15:25:04

So that's going on as well as we have a couple of pilot programs as well, and we'll be announcing them as well in mid March, and then

[Lyle Ishida (FCC)] 15:25:19

Not on the Acp side, but on digital equity and anti-discrimination, anti-digital discrimination portfolio that that she has.

[Lyle Ishida (FCC)] 15:25:33

My team is working on 3 different missing sessions for the anti-discrimination portfolio which anti-digital discrimination portfolio we'll be announcing them.

[Lyle Ishida (FCC)] 15:25:45

Those here listing sessions soon as well. I think the locations are going to be Baltimore somewhere in Texas, in Los Angeles, but that decision is above my head.

[Lyle Ishida (FCC)] 15:25:58

I'm just a planner. So that'll begin to happen.

[Lyle Ishida (FCC)] 15:26:02

Probably in the next month, short of that, that's what I got.

[Lyle Ishida (FCC)] 15:26:08

If there are any specific questions that we're not going to cover tomorrow.

[Lyle Ishida (FCC)] 15:26:14

About the Arizona that's I'm happy to take other questions.

[Lyle Ishida (FCC)] 15:26:19

Otherwise I might have to start cooking there bye.

[Steve Peters] 15:26:23

Well, we don't want to keep you from dinner, but any quick questions for Lyle

[Lyle Ishida (FCC)] 15:26:31

Easy. You guys are easy. Group Atlanta. I'm sorry I'm not gonna make the the Wednesday event.

[Lyle Ishida (FCC)] 15:26:40

We had a we were planning to come. We're planning to come, but we had a conflict in the Chairwoman scheduled, and that's the reason why we're coming in the fourteenth

[Ilana Lowery] 15:26:50

Yeah. She had a meeting with the President. She had to attend

[Lyle Ishida (FCC)] 15:26:52

Okay, so, is it. So lial did not say this right?

[Lyle Ishida (FCC)] 15:26:55

So as long as I didn't spill the beans.

[Lyle Ishida (FCC)] 15:26:59

No pop up on this meeting that she's having with the press that which I never said first record

[Ilana Lowery] 15:27:05

Nope! Hi! Set it

[Lyle Ishida (FCC)] 15:27:08

Yeah, you guys, you know, it's really great talking to you all.

[Ilana Lowery] 15:27:11

Oh!

[Lyle Ishida (FCC)] 15:27:15

I really appreciate the work we're going to do together.

[Lyle Ishida (FCC)] 15:27:18

And I also appreciate the work you all do to support people and consumers and broadband deployment, digital equity.

[Lyle Ishida (FCC)] 15:27:27

These are all really critical agenda items that serve a community.

[Lyle Ishida (FCC)] 15:27:34

So I'm gonna end with this. And you know, it's toward the late afternoon.

[Lyle Ishida (FCC)] 15:27:38

Now you're gonna get home in a couple of hours.

[Lyle Ishida (FCC)] 15:27:41

I want you to take a look in the mirror and I want you to feel good about yourself.

[Lyle Ishida (FCC)] 15:27:44

Does he know a lot this world needs toers like you and thank you for all you do.

[Lyle Ishida (FCC)] 15:27:50

And I'm gonna catch some of you tomorrow. Okay.

[Steve Peters] 15:27:52

Okay. Lya. One last thing before you go. So I think I mentioned this earlier about the the E rate, the request from the from the bureau about getting input regarding cybersecurity.

[Lyle Ishida (FCC)] 15:27:55

Good.

[Steve Peters] 15:28:09

Can you address that at all, or not

[Lyle Ishida (FCC)] 15:28:11

That's not on my portfolio, this I apologize, but I can get you.

[Steve Peters] 15:28:15

Okay, I kind of thought it wasn't. But

[Lyle Ishida (FCC)] 15:28:18

I think I can get you an e-rate speaker.

[Steve Peters] 15:28:21

Okay.

[Lyle Ishida (FCC)] 15:28:22

Hey? Maybe next month, next month's regular meeting. If you give me an opportunity.

[Lyle Ishida (FCC)] 15:28:29

To make inquiries, cause I was just off of the zoom call with E rate Division, we're trying to work on lifeline stuff.

[Lyle Ishida (FCC)] 15:28:40

So damn! I wish we yeah, I knew about this in our goal, but that but we work together closely.

[Steve Peters] 15:28:45

That's all right.

[Lyle Ishida (FCC)] 15:28:47

Let me let me try and get you a speaker for your next month's meeting, and you can have like.

[Lyle Ishida (FCC)] 15:28:51

How are you? How much time you want to learn?

[Steve Peters] 15:28:53

Well, I'll just fyi we meet weekly, but but but but but certainly, whenever your person was is available, would would work for us

[Lyle Ishida (FCC)] 15:28:57

Oh, that makes

[Lyle Ishida (FCC)] 15:29:06

I'll make sure. If they're in the office tomorrow I'll try and get you.

[Lyle Ishida (FCC)] 15:29:11

Yes or no, and their availability. By the time we're talking about the events

[Steve Peters] 15:29:16

Yeah, it doesn't have to be next week, and you know, can be whenever whenever they're available.

[Lyle Ishida (FCC)] 15:29:21

Okay, I got this.

[Steve Peters] 15:29:23

So thank you so much for joining us today.

[Steve Peters] 15:29:27

Go cook, dinner. What are we having for dinner?

[Lyle Ishida (FCC)] 15:29:30

We're having penny ala vodka

[Steve Peters] 15:29:32

Okay, so, so sounds good. Okay, thank you very much. Lyle, appreciate it.

[Lyle Ishida (FCC)] 15:29:34

No, alright! Take care, guys, we'll see you later.

[Steve Peters] 15:29:43

Okay. So while he's gonna drop off. But while we're while we are talking about all this stuff, Robert, do you want to give us a quick update on your plans for the affordable connectivity outreach Grant?

[Lucy Howell] 15:29:52

Thanks.

[Steve Peters] 15:30:01

I'm sorry I'll have dropped off before that.

[Steve Peters] 15:30:02

You want to give us an update. Please.

[Robert Alvarado] 15:30:02

Oh, sure no problem. That's okay. No, no, yeah, definitely.

[Robert Alvarado] 15:30:05

I'd love to give you guys an update and Hello, everybody.

[Robert Alvarado] 15:30:09

And so for those that don't know me on the Senior Vice president of our it, strategy and resources and evaluation departments here at Cplc.

[Robert Alvarado] 15:30:17

So we are a nonprofit company, and we do have a for profit side of the house which feeds into our nonprofit to sustain some of our programs that are much needed in the community.

[Robert Alvarado] 15:30:29

But we're in 5 states, California and Nevada, Arizona, New Mexico, and Texas, for those that that so far this grant, what we looked at is, we realize that you know there's a need in all of our States.

[Vaughn Croft] 15:30:34

And

[Robert Alvarado] 15:30:44

And we first started out doing this by handing out computers.

[Robert Alvarado] 15:30:47

When Covid first started and and then back. Then we we started with the ebb Acp was called ev B. Back.

[Robert Alvarado] 15:30:55

Then. And so we started helping people sign up for for Internet when it was ebb.

[Robert Alvarado] 15:31:02

So we were not only giving them, helping them get Internet. We were also giving them computers, so that we kind of had that total solution.

[Robert Alvarado] 15:31:08

So now you know, on onwards to today with Acp we went for the grant we were looking at, trying to do it in all of our States. Right?

[Robert Alvarado] 15:31:15

I said there was a need, and we'd have the connection with our program.

[Robert Alvarado] 15:31:18

Have you started looking at and breaking the budget down?

[Robert Alvarado] 15:31:20

We realize we wouldn't be able to do that. There just was not enough funding to do that.

[Robert Alvarado] 15:31:25

So we're not only going to do it all our states, but we're also going to be Puerto Rico, because we do have services that we're starting over there.

[Robert Alvarado] 15:31:31

So we took out Puerto Rico, and we took out Texas, and so we looked at is where we are going to hire somebody to to to manage this because the way we met with each of our presidents of our States and we started talking to this, like how would this work and what kind of resources would

[Robert Alvarado] 15:31:46

We have. So we work through this, and we realize that through our programs we will be able in and this is something that we've been doing here in Arizona.

[Robert Alvarado] 15:31:55

We did this with with common sense media, we've been doing this with Az strut and other partners as well.

[Robert Alvarado] 15:32:01

Is. Then we started utilize our our programs and talking to our leaders there and then we would do is we would set up these events or actually we'd get 20 to 30 parents to come and show up to our location.

[JONATHAN BOUTILIER] 15:32:13

That's weird about that

[Robert Alvarado] 15:32:14

And so it worked out pretty well because a lot of them were getting services at our site, so they would just come into our sites, and then we would set up some computers and tablets depending on where we're at.

[Robert Alvarado] 15:32:25

Sometimes we'd have costs come in if a lot of our our our families, hadcocks, so they would help the connect to compete.

[Robert Alvarado] 15:32:31

But a lot of times we would go in, and we would sit and and help them and walk them through, because a lot of our families are finding that they're not as tech savvy?

[Robert Alvarado] 15:32:40

And they shied away from it. A lot of them are monolingual.

[Robert Alvarado] 15:32:44

And so a lot of times they would ask their kids, who are younger, to go and help them fill out the documents and then they would get confused and have issues as they were trying to fill that out, so they shied away from it.

[Robert Alvarado] 15:32:55

So we found that, you know, just handholding them through.

[Robert Alvarado] 15:32:58

It was kind of the best process for our families and in the communities that we serve.

[Robert Alvarado] 15:33:03

So for this grant we set it up with this lead. We'll meet with our different programs, and they will plan these activities or events beforehand.

[Robert Alvarado] 15:33:13

In each of our State. That we're doing this in.

[Robert Alvarado] 15:33:16

And so they were partners like I said, with our programs and we'd set up the 20 to 30 people that would come.

[Robert Alvarado] 15:33:22

They would come in, we would walk, we would beforehand, we would prep, prep.

[Robert Alvarado] 15:33:26

Dance, that they they get all the documents needed so that way they can come in and have everything they need to sign up, and from there we have volunteers and and a team to kind of help them work through the process, and then when they were done, we would also give them a computer so that if

[Robert Alvarado] 15:33:43

They didn't have one. So that way they can get online and and access services.

[Robert Alvarado] 15:33:48

Maybe school. We've also been doing this with our older adults.

[Robert Alvarado] 15:33:51

So we've been doing a lot of trainings in in Thevada, where we've been giving tablets away and helping the older adult sign up for Acp as well.

[Robert Alvarado] 15:34:00

And so kinda that that's what our model looks like.

[JONATHAN BOUTILIER] 15:34:01

Okay.

[Robert Alvarado] 15:34:04

Is is, you know, having a lead, and then we have an assistant that will help this lead, and then they will be setting up all of the events and activities with our programs which are in these underserved communities, and then they would then have these events and host them and and have people sign up

[Robert Alvarado] 15:34:21

For Acp and and get a computer as well, and also learn how to utilize the computer

[Robert Alvarado] 15:34:27

Okay, so that's that's kind of our, our basic model that we're looking at.

[Robert Alvarado] 15:34:32

We are also partnering up with others. I know no Mala and Janet also mentioned.

[Robert Alvarado] 15:34:37

Hey, anytime we need a new side, or anything like that.

[Robert Alvarado] 15:34:39

Those are things we want to do right because we need to have other programs.

[Robert Alvarado] 15:34:42

There as they're doing this, because it's a great opportunity to reach out to the community and show what other services are out there.

[Robert Alvarado] 15:34:48

So as we do these events, especially here in Arizona, we will be working with some of the teams here to make some of that thing. Those things happen.

[Robert Alvarado] 15:34:56

We may be utilizing some of those locations will be like our locations.

[Robert Alvarado] 15:35:02

People will be welcome to come to our locations and and give out their information about their programs.

[Robert Alvarado] 15:35:07

So we figure, you know, all those resources help right? And it it it's it's a team effort.

[Robert Alvarado] 15:35:13

So I don't know if anyone has any questions, but that's what we ended up with time, for.

[Robert Alvarado] 15:35:19

We went for the full amount, and like I said, it was a very, very tight, but unfortunately we had to cut out Texas in Puerto Rico, but we are looking at future funding that that will hopefully help.

[Robert Alvarado] 15:35:30

So we can bring them on board as well

[Steve Peters] 15:35:34

Any questions for Robert

[Steve Peters] 15:35:39

Going months going twice. Okay. Well, thank you, Robert. There's always you do some great stuff

[Steve Peters] 15:35:48

Do we know if anybody else in Arizona is applying for that grant

[Steve Peters] 15:35:56

Hey? Not that we know of. Okay. So moving on Michelle, I don't think you're online, either.

[Steve Peters] 15:36:06

Are you doing Michelle and Cindy? Yes, not well.

[Phillip Seng] 15:36:12

Okay.

[Steve Peters] 15:36:12

February second, the Pima County is hosting, and other Fcc.

[Steve Peters] 15:36:17

Representative on a Zoom Meeting, and it is open.

[Steve Peters] 15:36:22

Anybody who wishes to participate I will be sending that out, although that's a couple of days.

[Steve Peters] 15:36:27

So we'll try and get that out before before that meeting.

[Steve Peters] 15:36:35

So just just wanted to let you know about that.

[Steve Peters] 15:36:38

They'll have a train. The trainer overview, and a queue, a session.

[Steve Peters] 15:36:44

During the meeting. So moving on anybody any questions about that

[Steve Peters] 15:36:50

Okay, Mark, and Kirk. I know you guys are online.

[Steve Peters] 15:36:56

You want to do us a quick recap of the meeting of your summit

[Steve Peters] 15:37:06

Hello!

[Mark Goldstein] 15:37:06

Kirk, you wanna give an overall, and then I'll talk about the working group

[Kirk busch] 15:37:17

I would love to, but I'm not really in a good position

[Steve Peters] 15:37:24

Okay.

[Kirk busch] 15:37:24

I'm I'm at. I'm at the.

[Steve Peters] 15:37:27

Okay.

[Kirk busch] 15:37:27

I'm at the post office. Sorry, multitasking.

[Mark Goldstein] 15:37:29

No problem.

[Kirk busch] 15:37:29

But everything, everything. Thanks for everybody who participated.

[Kirk busch] 15:37:34

Now I have 30 people looking at me like I'm crazy

[Steve Peters] 15:37:36

Well, if they know you, you are

[Mark Goldstein] 15:37:40

His pictures up in the post office, isn't it?

[Steve Peters] 15:37:42

Well, it's not on the video, so it must be somewhere

[Mark Goldstein] 15:37:48

So anyway. Yes, last week we had Kirk's third broadband Summit at the Willow Conference Center.

[Mark Goldstein] 15:38:01

Number of us were there. Who's a good old day program?

[Mark Goldstein] 15:38:05

Danced around on a variety of topics, energy data centers, digital equity a bit on Broadway.

[Mark Goldstein] 15:38:17

In the afternoon I hosted a breakout session under Aticc's banner for broadband providers.

[Mark Goldstein] 15:38:24

At about a dozen people. Not all of them providers in a room there, and another 15 or so online.

[Mark Goldstein] 15:38:34

We had a good discussion for an hour one of the issues that providers raise, that they're having particular trouble with is the utilization of a right- of way and delays in that arena.

[Mark Goldstein] 15:38:51

And that's something for possible follow-up action to see about.

[Mark Goldstein] 15:38:58

You know, a policy position and perhaps initiative regarding that, so that anyone else, a number of you were there. Steve Surreka, chime in

[Steve Peters] 15:39:16

I don't have anything, Dan.

[Mark Goldstein] 15:39:22

Okay. Then

[Steve Peters] 15:39:22

Okay. Alrighty moving on. Thank Mark, thanks for coordinating that that breakout group that was so.

[Steve Peters] 15:39:32

It was, I think, a good experience

[Steve Peters] 15:39:35

Okay, so moving on let's see what else we got on the agenda.

[Steve Peters] 15:39:45

Excuse me, so I want to remind folks I've sent out in my email announcement that Zoharis Elementary school is having a STEM showcase from 5 to 7 on March the thirtieth March March the thirtieth and they're looking

[Steve Peters] 15:40:03

For people to have exhibit booths, perhaps be sponsors, and to share information with with students that they expect they have over 750 students that are expected to turn out, and perhaps more so if any of you are interested please contact them again, that contact.

[Steve Peters] 15:40:28

Information is in the email that I sent out with the announcement of this meeting.

[Steve Peters] 15:40:34

So you can find that that information. So I wanna just jump in.

[Steve Peters] 15:40:40

Unfortunately, some of our people aren't here today. Say, I felt Sandy was gonna be here.

[Steve Peters] 15:40:45

But apparently he he can't make it. Mama. You want to give us an update quickly

[Mala Muralidharan] 15:40:51

Yes, I'll give you an update on the telehealth event that we had just this Saturday.

[Mala Muralidharan] 15:40:58

It was at the desert Anita Community Health Center.

[Mala Muralidharan] 15:41:01

It was a health and wellness, resource, fair. On the 20 eighth Saturday they were more than a 160 community members that showed up and participated in different activities.

[Mala Muralidharan] 15:41:15

There were a lot of vendor tables 31 different vendor tables and activities, including, of course, our library apple Library did not organize the event.

[Mala Muralidharan] 15:41:25

It was organized by the desert Sanita Community Health Center and Apple Library participated.

[Mala Muralidharan] 15:41:32

They displayed the telehealth equipment. That was a part of our prima county pilot project, and describe the services that they had our talking book library.

[Mala Muralidharan] 15:41:43

From the State Library, also participated, talked about their services to people with lovision, or who couldn't hold the book over dyslexic and not, etc.

[Mala Muralidharan] 15:41:54

The there was a memo band. The lines had their eye testing there as well.

[Mala Muralidharan] 15:42:01

We had connect Arizona website that was running the Acp information in a loop how to apply for Acp in a loop.

[Mala Muralidharan] 15:42:11

So it just kept going for people who were interested could stop by.

[Mala Muralidharan] 15:42:15

There were handouts that they could take as well so they could go home decide if they wanted to apply, come back to the library and put in their application.

[Mala Muralidharan] 15:42:25

So on. The whole event was really successful, for small town like that close to the border, I think we did well, and really happy to spread the word about telehealth in libraries at that.

[Mala Muralidharan] 15:42:43

Venue, and to those people who needed it the most other things that are going on.

[Mala Muralidharan] 15:42:50

Currently we are working hard on the E rate cyber security filing.

[Mala Muralidharan] 15:42:56

Shelby is filing or filing comments along with Cosine, which is the schools network.

[Mala Muralidharan] 15:43:06

Also working with Kasua. Kazla is the State Library Leaders network.

[Mala Muralidharan] 15:43:15

They're also participating in this. And making sure that Fcc freely hears us and pays attention to the the need to include cybersecurity as an eligible service for era so that that just covered as well also as far as LED date is concerned, there is a lot of attention being

[Mala Muralidharan] 15:43:36

Paid now to outreach, to the tribal community, so that they apply especially to apply, not just for Internet, but to apply for category 2, which is internal connections.

[Mala Muralidharan] 15:43:48

The routers, which are hubs, an internal wiring to upgrade that, so that when they do get the the high-speed Internet, their buildings have the capacity to handle that.

[Mala Muralidharan] 15:44:03

So that the there is there aggressively going to put out an outreach effort to reach the tribes.

[Mala Muralidharan] 15:44:13

What else do I have mapping? We we are still working with our land department, with Jenna and others on trying to identify the addresses that are not on the fabric and challenge.

[Mala Muralidharan] 15:44:33

Of course, the challenge process is a two-step process you can apply.

[Mala Muralidharan] 15:44:37

You can challenge them on a challenge. Fcc on locations missing locations.

[Mala Muralidharan] 15:44:44

But unless they put those missing locations in, you cannot challenge them.

[Mala Muralidharan] 15:44:49

On the next step, which is this, this speed at those locations?

[Mala Muralidharan] 15:44:57

And then the third step on, including community anchor institutions like libraries.

[Mala Muralidharan] 15:45:03

There's been a study done by New York Metropolitan Library on the mapping.

[Mala Muralidharan] 15:45:12

It is the digital equity research center that's located in the Metropolitan New York Library Council that has done the study and they are publishing a report on this Colin Rhinestone is the the author of that proprot. And it's coming out.

[Mala Muralidharan] 15:45:30

This Wednesday. I will send a link to Steve once I get it, and that's going to talk about various things that need to be corrected on the fabric.

[Mala Muralidharan] 15:45:41

At least for the next iteration of it. That's likely to come out in June.

[Mala Muralidharan] 15:45:47

At the end June of this year later this year. So back to you, Steve, unless anyone has any questions

[Steve Peters] 15:45:54

Okay, Erin, do you have anything that you want to have from the State Library?

[Erin Lorandos | AZ State Library, she/her] 15:46:02

Mala got all of my high points. I got one time I got to get to go first, otherwise I'll never get to say anything.

[Erin Lorandos | AZ State Library, she/her] 15:46:08

I'm just kidding. So another thing, I just wanted to add to that I was in that same call when we learned about that report that's coming out on Wednesday, and the the information you know, that public libraries submit yearly for their reports and the imls information would be an excellent

[Erin Lorandos | AZ State Library, she/her] 15:46:24

Starting point, for you know, verifying the map, and so hopefully, something can come of that, as Mala said, as a really interesting presentation today.

[Erin Lorandos | AZ State Library, she/her] 15:46:35

Other than that, I just wanted to reinforce the happiness that we had.

[Erin Lorandos | AZ State Library, she/her] 15:46:40

The event. On Saturday, and and that that connect Arizona and the digital navigators were represented there, even if not in person, and still looking forward to other opportunities like that, where we can get that information in front of the public so thank you.

[Erin Lorandos | AZ State Library, she/her] 15:46:53

So much for the time

[Steve Peters] 15:46:54

Okay, so before we get to our presentation today, let's see who's here today.

[Steve Peters] 15:47:03

How. I don't believe you're online. Janet Kennedy, you're not here, are you?

[Mala Muralidharan] 15:47:09

Janet is driving to Phoenix for the event, and she is stuck in traffic.

[Mala Muralidharan] 15:47:14

So she said, she's not gonna make it

[Steve Peters] 15:47:16

Okay, so Philip, you wanna give us a update.

[Steve Peters] 15:47:22

Anything new with the department of head

[Phillip Seng] 15:47:26

I'm here. I do not have any updates, you know, in in regards to any of the topics from last week, or we're still just working away with kind of admission, as we have, and kind of learning the new admission.

[Phillip Seng] 15:47:39

So no updates from pity.

[Steve Peters] 15:47:41

Okay. I don't play Cindy or Aaron is here.

[Steve Peters] 15:47:46

Nicole, Derek, Rory, you're online.

[Steve Peters] 15:47:50

Anything you want to share with the last. With the final mile

[Rory Conaway] 15:47:54

No, pretty much. Everything's everything's completed. We're taking orders from users in the different cities, but they they all the other projects, the infrastructure is all done.

[Rory Conaway] 15:48:03

The we're just working now on the next, the next round of bids it violin and Philip are working on

[Steve Peters] 15:48:12

Hey!

[Steve Peters] 15:48:16

Alrighty, so let's move on. So we do have a presentation.

[Steve Peters] 15:48:23

This today and this would be kind of a first for us, and that this is a return engagement with tellersite.

[Steve Peters] 15:48:36

I had a chance. I think most of you knew I had a chance to meet with John a couple of weeks ago.

[Steve Peters] 15:48:43

Had a great conversation, and learned a whole lot about their company, and the diversity of things that they're engaged in, and then had a chance to meet again with him at the summit.

[Steve Peters] 15:48:56

Cut last week, as well as some of his other folks, and so I've asked them to come back again while they talked about the mapping a lot.

[Steve Peters] 15:49:05

They are doing some work on the reservations, and so forth.

[Steve Peters] 15:49:10

So, John, I'm going to turn it over to you, and if you want to share, I will stop sharing my screen and leave it to you and your team.

[Steve Peters] 15:49:26

Yeah, there you are.

[JONATHAN BOUTILIER] 15:49:26

Take it off. Mute. Yeah. So like I said, I got a Kelly from my team here who runs our Gis urban planning side, and then Will Angelou, who is up actually up north in Arizona and runs a most of our outside plant as my senior

[JONATHAN BOUTILIER] 15:49:47

Outside plant one of my outside plant FM Pms. For the State of Arizona.

[JONATHAN BOUTILIER] 15:49:53

Majority of projects that will run our long term fiber projects outside builds, and he's got some experience on some of the E-rate stuff as well as working on the tribal lands, etc.

[JONATHAN BOUTILIER] 15:50:06

So Will's gonna actually do the presentation. He's prepared.

[JONATHAN BOUTILIER] 15:50:10

So I'm not sure if you, Steve, can give him access, or if I have to

[Will Anslow] 15:50:20

I I don't have a Oh, I don't know anything to necessarily display just a little bit about my background.

[Will Anslow] 15:50:32

And and you know that type stuff. So

[Steve Peters] 15:50:35

Okay. So you don't have anything that you want to share

[Will Anslow] 15:50:37

Not currently no.

[Steve Peters] 15:50:39

Okay.

[JONATHAN BOUTILIER] 15:50:41

He's got us some stuff put together. Good! Go ahead.

[Will Anslow] 15:50:42

Yeah, so.

[Will Anslow] 15:50:45

Okay.

[Will Anslow] 15:50:47

Okay, okay, yeah, so yeah, my name's Will Handslo.

[Will Anslow] 15:50:53

I work for a John at the tele site as a senior project manager of Osp.

[Will Anslow] 15:50:57

A little bit about my history, and a familiarity with the E.

[Will Anslow] 15:51:01

Rate, I first started working on eerie projects in 2,017.

[Will Anslow] 15:51:05

I worked with integrators to engineer network layouts as well as a assistant with construction for the projects I'm working in hand with you innovators as well as school representatives, determine building entrance requirements, renovating existing equipment space for new fiber distribution

[Will Anslow] 15:51:22

And that fiber routing on school campuses as well.

[Will Anslow] 15:51:26

In addition, I provided guidance on the overall fiber build based on a local knowledge and a permitting experience over the years.

[Will Anslow] 15:51:34

I assisted integrators on the area project. Alright, you, my elementary school district, and the galaxy and Frigh school district number One and Dear Valley in Frigh school district.

[Will Anslow] 15:51:43

Most recent E ring project. I got to participate in was, Yeah, William Jars on the Grand Cane village.

[Will Anslow] 15:51:50

New partner build along a State route 64 in 26 I was working with the Vice President, Comnet Renee rope to establish fiber from their time location, and William so Lumen's partner network.

[Will Anslow] 15:52:04

Since I was the engineering vendor for North America or Northern Arizona, bloom, and I was able to assist Renee with a eliminating 11 miles of new construction on his project.

[Will Anslow] 15:52:16

Since I was familiar with this network, and we're the last lumen fiber drop was as long as save around 64.

[Will Anslow] 15:52:22

We're counterall projects where I started my telecommunications career.

[Will Anslow] 15:52:25

I. Parent construction documents for p. 25. Technical communication, wireless projects.

[Will Anslow] 15:52:30

Mr. Critical status, and other both. The safety truncated video systems which are part that is, high level security acquaintances.

[Will Anslow] 15:52:38

I've built a communication systems from Camp Pump breeze along the Dnc. South Korea to point of entry and hold in Maine and everything in between department of homeland security was my biggest client for years, working on numerous projects for national security the white exposures of projects gave me

[Will Anslow] 15:52:55

Many different instances of having to work with Federal entities, such as blm.

[Will Anslow] 15:52:58

Department Interior, Us. Customs and border protection, as well as the Bureau of Indian Affairs.

[Will Anslow] 15:53:05

Now regarding the projects on tribal land and work, history experience.

[Will Anslow] 15:53:10

My most current land travel line project was working with in Integrator to build the navigation employee housing Gpon network.

[Will Anslow] 15:53:19

Essentially, this was just going to be kind of like a test environment to see if, having an established network what was, what's gonna be feasible and doable and basically expandable for an entire nation.

[Steve Peters] 15:53:27

Okay.

[Will Anslow] 15:53:36

My responsibilities include establishing a network layout Central Office location for all the hardware.

[Will Anslow] 15:53:42

Poll attachment agreements with Travel. Notco travel, utility, authority, creating construction documents for Nra.

[Will Anslow] 15:53:51

Approval, as well as setting up meetings with the An Explanation Government in the Navajo travel for product sentence.

[Will Anslow] 15:54:00

That's well, the latest and radius, you know.

[Will Anslow] 15:54:05

23 is gonna be a big focus for for us this year and working with the local communities as well as the tribal communities and helping under sur communities

[JONATHAN BOUTILIER] 15:54:19

My background, Steve on, on Will, and and some of the projects that we have worked that's up to the additional projects that we have worked on the E rate over the last year and a half have been like I mentioned previously.

[JONATHAN BOUTILIER] 15:54:34

The Phoenix Union School district. We put in 42 miles, connecting a private network to connect to a city of Phoenix UN School district, and we also did the region human, regional medical facilities as well connecting and building out a private fiber network for them and tying all the I think.

[JONATHAN BOUTILIER] 15:54:51

There was 7 medical facilities down in Newman that we had connected at the time as well.

[JONATHAN BOUTILIER] 15:54:57

So.

[JONATHAN BOUTILIER] 15:55:01

That's pretty much about it. We're getting into some more than the E rate on the cellular stuff we've been working with some other, some other vendors and stuff.

[JONATHAN BOUTILIER] 15:55:11

I can't really share that because of confidence.

[JONATHAN BOUTILIER] 15:55:12

Ality and non disclosure agreements. But we've we've got some others work that we've been working on the wireless side, putting in sell sites at a schools and serving communities in in around the Yuma area just as recent as of 4 months ago. We we got Engaged there as well.

[Steve Peters] 15:55:34

Okay.

[Steve Peters] 15:55:36

Anything else. John will

[JONATHAN BOUTILIER] 15:55:41

Yes.

[Steve Peters] 15:55:42

Then you also want to share any questions for for John, and will

[JONATHAN BOUTILIER] 15:55:47

And if there's any questions like I said that didn't want to put together stuff, and just Steve, I know you leave it up until the end of the chat and stuff and we can go through and grab those.

[JONATHAN BOUTILIER] 15:55:56

And, you know, put some. I can have Will and myself, but some answers together as well. If there's any questions that go into the chat as well for next week.

[Steve Peters] 15:56:02

Okay, sounds like a plan

[JONATHAN BOUTILIER] 15:56:05

Maybe what I'll do is I'll share those.

[JONATHAN BOUTILIER] 15:56:08

If it makes more sense, I'll share those. If they're in there, I'll take them as questions, and I'll respond back to them, and I'll share with you prior to you sending out the next meeting.

[JONATHAN BOUTILIER] 15:56:16

Invite that information. If you want to share it in the in the email going out.

[JONATHAN BOUTILIER] 15:56:18

So I want how it don't be it so

[Steve Peters] 15:56:19

Okay.

[Steve Peters] 15:56:23

Okay, so we're getting close to being done. I guess a couple of announcements.

[Steve Peters] 15:56:32

Looking down here. And I'll get this out today, hopefully, today again, the Asu Smart region summit is on February the first from 8 to 3 at the Herd Museum.

[Steve Peters] 15:56:46

And on February the sixteenth the Phoenix Cyber Security Conference will be taking place on February twenty-first is the community economic development Advisory.

[Steve Peters] 15:57:01

And all of this information is in the email that I sent out with the announcement of this meeting.

[Steve Peters] 15:57:06

So you should be able to find the links, the registration, and all of that information

[Steve Peters] 15:57:11

On March the ninth is the annual tribal hub, virtual tribal Cyber Security Summit.

[Steve Peters] 15:57:20

And so you, I believe, are welcome to attend that also.

[Steve Peters] 15:57:25

Are there any other announcements some people want to share

[KARLA MORALES] 15:57:31

You just, you know, I just just put in the chat the upcoming Arizona Technology Council met Techc conference happening on March 20 s.

[Steve Peters] 15:57:42

Okay.

[KARLA MORALES] 15:57:42

I I just details on the to the link on the event

[Steve Peters] 15:57:46

Okay. Thank you. Colorado. Anything else.

[Steve Peters] 15:57:51

Well, I guess I'm sorry. Go ahead

[Mala Muralidharan] 15:57:52

Steve.

[Mala Muralidharan] 15:57:54

Hey! This is Mala. I just just wanted us to strategize if we are going to have a meeting with the live tomorrow, you know, do we have, you know, venues that we could offer him, or you know what what is our plan?

[Steve Peters] 15:57:55

Yeah.

[Mala Muralidharan] 15:58:14

Of what? We'd like to go. What we'd like to do.

[Steve Peters] 15:58:16

Well, I, I, yeah, we can. We can certainly discuss that now.

[Mala Muralidharan] 15:58:18

I see Lana's hand up

[Steve Peters] 15:58:22

A little bit, Milo. If you think that's necessary, or just tomorrow, that we can get more details from him about, you know what he wants this to look like, and then we can talk tomorrow about what are different options for for locations

[Mala Muralidharan] 15:58:39

I think Atlanta has something that you would like to share or say

[Ilana Lowery] 15:58:43

Yeah, I just got an email from the city of Phoenix, because we had been working with them with the Jessica reason, warsal event.

[Mala Muralidharan] 15:58:47

Huh!

[Ilana Lowery] 15:58:51

And they basically just said that they're in a discussion about rescheduling from February fourteenth to a date in April, for for a variety of reasons, including it being so close to the Super Bowl, because the city will be all the people will be really busy that

[Ilana Lowery] 15:59:10

Week, and then new cycle will still be heavenly, dominated by super bowl impacts and airport delays, and all of that.

[Ilana Lowery] 15:59:17

So it's probably not going to be. February 14.

[Steve Peters] 15:59:20

Okay? Well, maybe that's a good thing.

[Mala Muralidharan] 15:59:22

Hello!

[Ilana Lowery] 15:59:23

But maybe you didn't hear that from me, either.

[Mala Muralidharan] 15:59:27

That's great. That's breaking news, Alana. You can't say we can hear it from you.

[JONATHAN BOUTILIER] 15:59:29

Good.

[Steve Peters] 15:59:34

So so vial.

[Ilana Lowery] 15:59:34

So yeah, so we'll find out more tomorrow.

[Paul Ross] 15:59:36

That makes sense.

[Mala Muralidharan] 15:59:38

Paul.

[Paul Ross] 15:59:40

I was gonna say, that makes perfect sense, that logic. So I like logic.

[Paul Ross] 15:59:45

And that's very logical.

[Mala Muralidharan] 15:59:47

Yes.

[Ilana Lowery] 15:59:48

Yeah. When he said, February fourteenth, I was just like you've got to be kidding me

[Steve Peters] 15:59:54

Well, I think that's what he was told. So

[Ilana Lowery] 15:59:54

Okay.

[Ilana Lowery] 15:59:56

Yeah, yeah. So maybe we'll know more tomorrow from him.

[Ilana Lowery] 16:00:02

I might know more from the city. I just know that that literally came.

[Ilana Lowery] 16:00:06

I type. I was texting them when Lyle was on, and she just got back to me. And that's what she said. So

[Steve Peters] 16:00:14

Okay. So he probably doesn't know that yet.

[Ilana Lowery] 16:00:18

I guess not.

[Mala Muralidharan] 16:00:19

In. No, he'll know by tomorrow.

[Ilana Lowery] 16:00:22

We shouldn't be. It just means that I think we have more time

[Steve Peters] 16:00:26

Which is good.

[Mala Muralidharan] 16:00:26

We add, Yeah, I think we need time. If we want to make this a successful event in Arizona.

[Mala Muralidharan] 16:00:34

First location matters as Paul said. You know, if you're going to have it, you know the Hilton or some other place, or whatever you're not, Gonna get the people who really want to sign up, you know, it's at a school at the library, of the church or somewhere, where these people would show up you know the very

[Paul Ross] 16:00:36

Yeah.

[Mala Muralidharan] 16:00:52

First thing that he talks about in training is that we should be at a trusted place.

[Mala Muralidharan] 16:00:57

Trusted location with trusted people. And I don't think that's gonna happen if you're gonna have it at a you know, big venue

[Paul Ross] 16:00:58

Yeah.

[Paul Ross] 16:01:03

Hotel.

[Steve Peters] 16:01:05

Okay, well, it sounds. It sounds to me, Mala, and I don't wanna pretend to speak for him.

[Steve Peters] 16:01:11

But I think he's saying, Well, this is happened pretty quick we just need to get something nailed down quick, and I'm willing to pay for hotel to make it happen.

[Steve Peters] 16:01:18

But I think we're gonna come up with certainly lots of other venues

[Mala Muralidharan] 16:01:23

Right and for us to line up people to sign up. I think we need to do what Robert said.

[Mala Muralidharan] 16:01:29

You know, you need to case the joint. You need to know who these people are who are coming.

[Steve Peters] 16:01:35

Yeah.

[Mala Muralidharan] 16:01:35

You know, we need to make sure that we have all our ducks in a row.

[Mala Muralidharan] 16:01:40

It's it's not going to be a successful event unless you work on it.

[Robert Alvarado] 16:01:43

And

[Steve Peters] 16:01:43

Yeah, well, I you know again, not wanting to speak for Lyle, but I think if he finds out that he's got more time, I think he he'll be a happy chapter also.

[Mala Muralidharan] 16:01:53

Too bad, you know, and and sadly, many of Fcc.

[Mala Muralidharan] 16:01:59

Things are all like that, you know. They they just tried to cobble things together because they have the funds or the money they think it can be successful.

[Mala Muralidharan] 16:02:07

It can't secure, is working at the grassroots like Atlanta and I do.

[Steve Peters] 16:02:12

Yeah.

[Mala Muralidharan] 16:02:12

We work at the grassroots, we work trying to build these partnerships and build these people up and build these folks to come and sign up.

[Mala Muralidharan] 16:02:22

It's not like if we have our trainers train, but they're going to come, and you know, come in and get their Internet.

[Mala Muralidharan] 16:02:30

They don't know what the Internet can do for them.

[Steve Peters] 16:02:32

Yup!

[Ilana Lowery] 16:02:32

Right and and Robert and I could attest to to that Mallow, because, you know the event that we did.

[Mala Muralidharan] 16:02:33

We have to begin from there

[Robert Alvarado] 16:02:35

Hey!

[Mala Muralidharan] 16:02:37

Yes, yes.

[Ilana Lowery] 16:02:41

We did put it together in our really short amount of time, and I think Robert would agree that if we had another couple of weeks that we could have done it even bigger and better.

[Ilana Lowery] 16:02:52

It. It was good, but it could have been better. And and we, Robert, I know that you're off mute.

[Robert Alvarado] 16:02:56

Yeah, I'm on mute. Okay, yeah, yeah. So that, thank you.

[Ilana Lowery] 16:02:57

So yeah, feel free.

[Robert Alvarado] 16:03:01

Yeah, so so just definitely wanna say to both, you guys point, you guys are right on target and definitely, we we need to kind of plan out a little bit, too, because families will have to take off of work, right?

[Robert Alvarado] 16:03:13

If he's having it during the day, they need to be able to plan to do that.

[Robert Alvarado] 16:03:16

So we need to have it on days that also work for the families, and that they will be able to go.

[Robert Alvarado] 16:03:21

These sites unless he's having it after hours on on the weekend.

[Robert Alvarado] 16:03:24

We do have some locations and some sites he's looking at, and the locations.

[Robert Alvarado] 16:03:29

But like I said it would have to be planned out so that way we can get the families in, you know, plan their their plans worked out as well as Alana said that we had we we were casing we were going hitting doors, knocking on doors and our programs were we're

[Robert Alvarado] 16:03:44

Reaching out and and you know we had a decent turnout, but we could have had even more if we had a little bit more time, because we we definitely did push it.

[Robert Alvarado] 16:03:52

So whatever he's trying to do. If we could plan to add a little bit and and look at where he's trying to do this, it'd be great

[Steve Peters] 16:03:57

Yeah, I think that again. The conversations I've had with Lyo, and I know he's he's he was working in Florida and all over.

[Steve Peters] 16:04:07

So I think he's very sensitive to that. And again, not wanting to speak for him.

[Steve Peters] 16:04:13

But I'm guessing that he just hit with this sharp deadline, and was saying, Hey, if that's what it takes, let's make that happen.

[Steve Peters] 16:04:21

But again, I think that we can help them find other venues that will work much better for him. And I. I don't think that we'll see any pushback from him about using other facilities

[Steve Peters] 16:04:35

Heather. You had a comment

[Heather Floyd] 16:04:37

I know we're talking Tucson in Phoenix, but if we ever need a rural location in Wilcox we do have a beautiful meeting room here in at Valley Telecom we'd be more than willing to utilize for any of these outreach events or any

[Steve Peters] 16:04:47

Okay.

[Heather Floyd] 16:04:52

of that sort of thing

[Steve Peters] 16:04:53

It actually would be nice if they came and did some stuff in the rural communities

[Robert Alvarado] 16:04:59

Hey! Hey! Heather! We we actually we have a really childhood development center.

[Heather Floyd] 16:05:03

Yes.

[Robert Alvarado] 16:05:03

There. So if they do, and you have the facility, we can actually go and talk to our families and and ask them to show up. So

[Heather Floyd] 16:05:13

Yeah, we're more than willing to to work out an arrangement to get it used without charge for any of them.

[Robert Alvarado] 16:05:13

That would

[Steve Peters] 16:05:22

So, so should we still go ahead and try and meet tomorrow with the assumption that this is gonna be delayed, and I will send a note to A.

[Steve Peters] 16:05:33

While right away. I don't know if I have a

[Ilana Lowery] 16:05:35

He was copied on my note to Gretchen.

[Ilana Lowery] 16:05:37

It's the city

[Steve Peters] 16:05:38

Okay. So I'm assuming that he will probably be happy that the the schedule is gonna get changed

[Ilana Lowery] 16:05:48

But I don't. Meeting tomorrow

[Paul Ross] 16:05:49

And I think

[Steve Peters] 16:05:51

I'm sorry. What was that?

[Heather Floyd] 16:05:51

He might have a new date right there.

[Ilana Lowery] 16:05:55

I said, I don't think it would hurt. Still meeting tomorrow and getting the ball.

[Steve Peters] 16:05:58

Sure. Get the get the ball rolling. Okay.

[Ilana Lowery] 16:05:59

Okay.

[Paul Ross] 16:06:02

An email, provo. He may provide some information to that. We can then feed back to the system, back to correction and such.

[Mala Muralidharan] 16:06:02

Hi

[Paul Ross] 16:06:10

But I would imagine that the city is going to have a very definitive plan that they want to pursue as well.

[Paul Ross] 16:06:14

So like Gretchen and economic development and other leadership within the city, having work with some of them in the past and still currently working with them, I would imagine that they're going to wanna plan this to a T and the ground level outreach is going to be so important just like Robert was saying before

[Paul Ross] 16:06:34

the ground level outreach is going to be critical

[Ilana Lowery] 16:06:37

And Steve. I couldn't get off a mute fast enough earlier. The city of Phoenix did apply for the Acp. Grant

[Steve Peters] 16:06:44

Oh, you did. Okay, do you? So anything else? So well, let me ask you a lame because we're gonna probably have the same issue.

[Steve Peters] 16:06:55

I need to see about who they've been in communication with here in Tucson.

[Steve Peters] 16:07:02

If we go ahead and start working on this, or we bring in Phoenix or we leave it, put them to do their separate thing, or how do we best proceed?

[Steve Peters] 16:07:13

I don't wanna be in conflict with them. And so, and you know them. I don't.

[Steve Peters] 16:07:18

So what's your thought?

[Ilana Lowery] 16:07:19

Well, I mean, my thought is, they were to be honest. They were building this around Jessica's trip to Phoenix.

[Ilana Lowery] 16:07:25

That was supposed to be this Wednesday. That was the original plan with the press conference and everything that got changed to what he's saying.

[Steve Peters] 16:07:26

Yeah.

[Steve Peters] 16:07:30

Okay.

[Ilana Lowery] 16:07:36

February fourteenth, I guess, and I and I know that the city, as Paul just said, they're they're really on top of this.

[Ilana Lowery] 16:07:43

They want to do this they want to build something around Jessica Russell morsels visit here.

[Ilana Lowery] 16:07:48

Because why why wouldn't you? I mean she's right.

[Steve Peters] 16:07:49

Sure.

[Ilana Lowery] 16:07:51

So as far as doing something. Tucson related. I I don't know that it would be in conflict, I mean certainly don't do it.

[Ilana Lowery] 16:07:59

The same day.

[Steve Peters] 16:07:59

I wasn't worried about Con. I wasn't worried about Tucson.

[Steve Peters] 16:08:02

We can deal with 2, son, but with Phoenix.

[Steve Peters] 16:08:07

So if they've already got plans, how do we intersect with that?

[Steve Peters] 16:08:10

Or do we not deal with Phoenix or I?

[Steve Peters] 16:08:15

I am a little bit confused about

[Ilana Lowery] 16:08:16

Well, I mean we intersected, but we intersected with them initially, because they called us, and then, when we couldn't apply for the Grants because of the ISP thing, we were gonna try to work with them in some other other ways, and so she asked about the press conference and

[Steve Peters] 16:08:19

Okay.

[Ilana Lowery] 16:08:32

whether or not common sense could be appropriate. Whatever was gonna happen for the press conference.

[Ilana Lowery] 16:08:38

So that's kind of like where we were at in the conversation when things got canceled and moved, and Jessica couldn't be here Wednesday, and so we're just in contact with them.

[Ilana Lowery] 16:08:48

I think they just need to have. They're gonna want to have all their ducks in a row, like all said like they have a lot of grassroots work that they want to do, and as far as the mayor I mean her whole goal is to create.

[Ilana Lowery] 16:09:02

A connected city, and again they did a psa for us on the Acp.

[Ilana Lowery] 16:09:08

And they put information about Acp and the water bills as part of our campaign.

[Ilana Lowery] 16:09:13

So that's how we're connected as far as other people they would.

[Ilana Lowery] 16:09:17

I'm assuming that the city would accept any and all participants.

[Ilana Lowery] 16:09:22

I mentioned az strat to them when we were talking through our our campaign, and they loved that idea of having a computer reference.

[Ilana Lowery] 16:09:31

So I think if we can get more information from the city about what they're planning and get information about ly and what he's planning, I think I think there are places we can intersect as

[Steve Peters] 16:09:41

Well, so so alignment should we be inviting somebody from the city?

[Steve Peters] 16:09:46

If we have this meeting tomorrow, should we cause? I for us to go through and have a whole conversation about what we think needs to be done, and then, finding out that the cities off doing their own thing?

[Ilana Lowery] 16:09:53

Well once again!

[Steve Peters] 16:09:58

And I don't mean to be critical. I'm just saying I want us to be in

[Ilana Lowery] 16:09:58

Now, in my event. No, no! In my email to Gretchen, Steve. I told her we were having this meeting tomorrow, and that if she wanted to go to, if she wanted to attend to let me know, and I would share the invite with her

[Steve Peters] 16:10:09

Okay. Thank you.

[Ilana Lowery] 16:10:10

So, yeah, no, I didn't want to do anything, you know, behind their back or without, you know.

[Steve Peters] 16:10:15

Right.

[Ilana Lowery] 16:10:16

I just told her that we were possibly planning this meeting, and if she was interested in attending to, let me know and I would share the invite with her.

[Ilana Lowery] 16:10:22

So I can. Certainly, if the meeting is happening still tomorrow, I'll I'll just let her now text her and just tell her that we're still meeting.

[Ilana Lowery] 16:10:30

You know she wants to participate. She is

[Steve Peters] 16:10:31

Okay. Alright. Well, I think what I'm gonna do is I'll go ahead and plan the meeting for tomorrow.

[Steve Peters] 16:10:39

But I will not mention that we're looking at the fourteenth and fifteenth at this point.

[Steve Peters] 16:10:45

But the though she is, gonna be visiting that there will be events and and press conferences in Tucson and Phoenix, and that we're gonna be having more discussion about how we can best help.

[Steve Peters] 16:11:00

Is that good enough?

[Ilana Lowery] 16:11:01

Yeah, I think, doing. You know, the idea of doing a big event is certainly one that everybody could participate in working on, regardless of what?

[Steve Peters] 16:11:09

Yeah.

[Ilana Lowery] 16:11:10

Like a, you know, big event with the city of Phoenix, or bring in.

[Ilana Lowery] 16:11:13

Maybe, you know, maybe we find ways to bring in Tucson and some other areas, or do some outreach in other areas at the same time, whenever it's gonna happen, April, whatever

[Steve Peters] 16:11:24

Okay.

[Mala Muralidharan] 16:11:25

And we we need that kind of lead time, you know, to work on it

[Steve Peters] 16:11:28

Yeah, no, I think I well, I'm I'm guessing now that that Lyle, you know again, just I don't know.

[Steve Peters] 16:11:38

Live all that well, but I think he's gonna certainly be open to every more time and more help in in getting this finding a place and scheduling.

[Steve Peters] 16:11:49

And getting the word out, and all that kind of stuff. So I'm sure he's gonna be open to that.

[Heather Floyd] 16:11:52

It's great!

[Steve Peters] 16:11:54

I don't think that'll be a problem

[Steve Peters] 16:11:58

Okay. Anything. Else.

[Steve Peters] 16:12:02

Anything else for the good of the order. If not, I think we're we're done for today, so we'll maybe see all of you tomorrow.

[Mala Muralidharan] 16:12:11

It's ironic, Steve. You move the the meeting to 30'clock for 2 specific people, and they are not attending.

[Steve Peters] 16:12:17

Yeah, yeah, yeah, okay, well, I think we're done. So thank you.

[Mala Muralidharan] 16:12:20

Hmm, hmm.

[Steve Peters] 16:12:27

All.

[KARLA MORALES] 16:12:28

Thank you, Steve. Have a great afternoon

[Steve Peters] 16:12:48

Okay. So if anybody wants to stay online for a little bit and chat, or whatever I'm trying to freak out why, I'm having a problem captions, let's see if that will work show captions

[Steve Peters] 16:13:18

Folks.

[Steve Peters] 16:13:23

Hmm.

[Lucy Howell] 16:13:23

But, by the way, John, you are finally, as of this morning, kind of set up on some structure, so heads up for some welcome and email activations for you, and then maybe we can get together later this week, I can talk, it, I created a healthy workforce healthy families and a wellness.

[Lucy Howell] 16:13:45

Advisory so kind of, you know. One group, 2 subgroups, and I'll kind of walk you through.

[Lucy Howell] 16:13:48

Does this week

[Steve Peters] 16:13:52

Okay, so what else does anybody have that they want to share for today?

[Ilana Lowery] 16:13:59

Steve. I was just staying on in case you had any other questions. I have to happen.

[Ilana Lowery] 16:14:02

Okay. A couple of minutes

[Steve Peters] 16:14:03

Okay. Well, again, I just wanna make sure that we're you know we I don't want it to look like we're trying to somehow compete with or go off on our tension here from whatever Phoenix is already working on.

[Steve Peters] 16:14:16

So we just wanna make sure that we're and you're you're the person to be that liaison.

[Steve Peters] 16:14:22

So I'll leave that to you.

[Ilana Lowery] 16:14:24

Yeah, I think they'll take whatever help folks that are part of our group can provide.

[Ilana Lowery] 16:14:29

We just need to first find out what the plan is and what the date is.

[Ilana Lowery] 16:14:33

And if there's a big event happening, and and we can work, maybe in, you know, chunks like, figure out where.

[Steve Peters] 16:14:39

Yeah. Yup.

[Ilana Lowery] 16:14:43

You know, Paul has great ideas about venues. Maybe we can help them, you know it's got, you know.

[Ilana Lowery] 16:14:48

Obviously, you know, while the other thing that I don't know, while realizes cause, I don't.

[Ilana Lowery] 16:14:54

Well, the hill. I don't know where the hotel was that he was talking about, but obviously the city needs to do it in a you know, in the within the Phoenix, and they'll want to do it probably in a place, you know.

[Steve Peters] 16:15:02

Yup!

[Ilana Lowery] 16:15:06

That's like a library or something like that. So I know that that was a conversation that we had early on and I don't know if, while you know, if that's I know they would want to have it in a in a phoenix in a city like a park recreation space

[Ilana Lowery] 16:15:24

Recreation Center. In fact, there was one South Mountain Mountain Recreation Center.

[Ilana Lowery] 16:15:28

That is what they were planning for. Wednesday sounds free

[Steve Peters] 16:15:29

Yeah. Well, you know again, knowing Lyle, he's well with tune to having places like I said, I'm just guessing.

[Steve Peters] 16:15:39

I don't want to speak for a while, but I'm guessing that he just got this last minute kind of thing, and he's going that's like, couple of weeks away.

[Steve Peters] 16:15:48

I gotta find a place pretty quick and if I have to pay for hotel I'll do that.

[Ilana Lowery] 16:15:49

Yeah.

[Steve Peters] 16:15:52

But I think he would be more than willing if we can say, Hey, we've got this place or places that he would be more than happy to, particularly if we can help him to make those arrangements

[Ilana Lowery] 16:16:04

Yeah, I just have a feeling. The city is gonna probably find the location cause they'll want it in the city.

[Ilana Lowery] 16:16:11

You know, recreate like I said, like a city run.

[Steve Peters] 16:16:12

Yeah.

[Ilana Lowery] 16:16:16

Facility, so I don't know that we'd have to necessarily we can give them all the ideas we want, but when he starts talking with city of Phoenix, I think he's gonna find out they're gonna want it in you know, a low income area, high need aaron you know.

[Steve Peters] 16:16:16

Yeah.

[Steve Peters] 16:16:27

Sure.

[Ilana Lowery] 16:16:29

Some place where there's, you know, a city run. Facility.

[Ilana Lowery] 16:16:33

So, yeah.

[Steve Peters] 16:16:34

Yeah, and again, I don't see that to be a problem.

[Steve Peters] 16:16:38

With that. You know just what I know. Vial in the work that he's been doing.

[Steve Peters] 16:16:44

I don't see that as a problem for him

[Ilana Lowery] 16:16:44

I think honestly for an event, the problem or the issue, and we talked about this briefly is getting people there, you know, if they're gonna have, you know, these Fcc trainers and work on training the train the trainer, the whole idea was the Fcc was supposed to come with their trainers the trainers

[Steve Peters] 16:16:51

Yeah.

[Ilana Lowery] 16:17:03

were gonna train certain folks within the city of Phoenix is different departments, like like housing depression, all so that they could then take the the sign up enrollment program into these different areas of the city.

[Steve Peters] 16:17:18

Yeah.

[Ilana Lowery] 16:17:19

I don't know if that's still the plan or if that's gonna change.

[Ilana Lowery] 16:17:23

But I mean I could see where you know. Maybe we have the library.

[Ilana Lowery] 16:17:28

You know navigators there, as well as the Fcc.

[Ilana Lowery] 16:17:31

Folks because Wy makes it sound very easy to sign up for for acp like you walk in, and 20 min later you're done, and I've got news for him because I've done sign ups and they are not all 20 min.

[Ilana Lowery] 16:17:44

In fact, I would argue that more than half take 35 45 min or longer

[Steve Peters] 16:17:50

Yeah.

[Ilana Lowery] 16:17:52

So he's I don't know how many navigators he's bringing.

[Ilana Lowery] 16:17:55

I don't know how many trainers he's bringing, but my guess is, if we're gonna do a big event with lots of people, we're gonna want navigators from Asu.

[Ilana Lowery] 16:18:03

We're gonna want app net. The navigators from the library.

[Ilana Lowery] 16:18:06

We're gonna want the Fcc navigators, because we didn't have enough at our small little event that we did with. You know, Chicago's pro accounts

[Steve Peters] 16:18:11

Yeah, so well. And and it sounds to me that we're actually talking about 2 events. We're talking about a train. The trainer's event, which is totally different than a sign up event. So

[Ilana Lowery] 16:18:24

Right, his sign up event was the thing he mentioned from 4 to 80'clock the train, the trainer event was gonna happen immediately after the press conference.

[Ilana Lowery] 16:18:34

The Tr. They were gonna go start training, you know. Spend a couple of hours training.

[Steve Peters] 16:18:34

Okay.

[Ilana Lowery] 16:18:39

Whoever the city, you know, I guess whoever wants to get trained because while I did all of us, so that's what they're going to do for a few hours after the press conference, and then the event was gonna be from 4 to 80'clock, is what I think he was saying.

[Steve Peters] 16:18:42

Yeah.

[Steve Peters] 16:18:52

Okay, okay? So that so obviously, there's 2 different target groups that we're trying that we're trying to reach out to

[Ilana Lowery] 16:18:54

Enrollment, event.

[Ilana Lowery] 16:19:02

Right.

[Steve Peters] 16:19:04

Okay.

[Ilana Lowery] 16:19:04

So alright. I gotta jump sorry

[Steve Peters] 16:19:07

Hey? So thanks for the info. Let me know when you hear from Phoenix.

[Paul Ross] 16:19:10

Thank you.

[Steve Peters] 16:19:14

I don't think there's a reason for me to contact them, but if you think I need to follow up with them somehow, I'll be glad to do that.

[Ilana Lowery] 16:19:21

I think. Let's wait till let's wait till our meeting. Let's just wait till our meeting tomorrow and see what comes up or what comes out of it, and maybe I'll hear from her by then.

[Steve Peters] 16:19:22

But it's in your capable hands. At this point

[Steve Peters] 16:19:28

Okay.

[Steve Peters] 16:19:32

Sounds good. Thanks, bye. Now.

[Ilana Lowery] 16:19:33

Okay. Thanks.

[Steve Peters] 16:19:38

Anybody have anything else for the good of the order for today

[Paul Ross] 16:19:38

Okay, so.

[Paul Ross] 16:19:41

Just just to follow up. I might have missed it. Is it the Fcc chair who's coming that's what I thought.

[Steve Peters] 16:19:46

Yes.

[Paul Ross] 16:19:48

Okay, alright and I just want to say, Fernando, you'll picture of that spool up.

[Paul Ross] 16:19:56

The pole is very intriguing. I love it, I I I really love it.

[Paul Ross] 16:20:03

But that's not intriguing

[Paul Ross] 16:20:06

Anyway. Probably not there

[Lucy Howell] 16:20:07

And Steve. I just wanted to be in your ear right as you lay the ground works for like these committees, and kind of like, you know these areas.

[Steve Peters] 16:20:12

Okay.

[Steve Peters] 16:20:18

You bet!

[Lucy Howell] 16:20:21

Because maybe if even the advisors kind of take everybody one route, maybe if there is like the focus kind of health Committee.

[Lucy Howell] 16:20:29

And I was looking at the commands. I didn't even think one was like a health like I was almost like I could almost be in like 3 or 4 different committees.

[Lucy Howell] 16:20:37

But I just want to stay in your ear because I want to prove a point, possibly on what committee management could look like with the force for Health versus, just like slack.

[Steve Peters] 16:20:37

Sure.

[Lucy Howell] 16:20:47

And, you know, disconnected zoom type of deal

[Steve Peters] 16:20:47

Yeah, we're not through them. We're not doing slack.

[Lucy Howell] 16:20:51

Oh, I thought I saw that I was like there are 2 ones

[Steve Peters] 16:20:53

No, that was Mark's thing with the with the Provider group but we're not doing slack.

[Lucy Howell] 16:20:59

Oh, okay, got it. So maybe maybe sometime this week, if you and I get back together and we can like brainstorm a bit more on, you know how we can maybe do something.

[Steve Peters] 16:21:00

No.

[Steve Peters] 16:21:03

Yeah, sure.

[Steve Peters] 16:21:08

Sure I know I owe you a phone call. Lucy it's just been a busy, a busy time.

[Lucy Howell] 16:21:10

No, no, no, that's okay. No.

[Steve Peters] 16:21:16

And so definitely, want to chat with you. But I I well, slack, has its benefits.

[Steve Peters] 16:21:23

What I find is that a lot of people are saying no, not another platform.

[Steve Peters] 16:21:27

I don't want to do it, and so we we had. We.

[Steve Peters] 16:21:30

We had a platform that we used a number of years ago with gazelle, and what I found was that some people joined in some didn't, so I'd make announcements about meetings, and then I'd have to go send an email to everybody and so after a while it just got

[Steve Peters] 16:21:46

To be. It was great. Some people, you know, used to make exchange ideas and information stuff like that, but what I heard from a lot of people was, I just don't want to do another chat platform.

[Steve Peters] 16:21:58

So we're not gonna do that.

[Lucy Howell] 16:21:58

Oh, yeah, no. When I saw that I was like, Oh, man, I want to see in these year. And I thought it was like the consultants doing now.

[Steve Peters] 16:22:02

No, no, no, Nope! Nope, that's Mark, that's Mark's thing.

[Lucy Howell] 16:22:08

Okay, got it?

[Steve Peters] 16:22:09

And if Mark wants to do that, and you know more power to him.

[Steve Peters] 16:22:12

And he's welcome to give it a try. But we're not doing that

[Lucy Howell] 16:22:16

Is health related is health. The committee

[Steve Peters] 16:22:18

Yeah, we have a tech. We have a telemedicine and health group that we're looking at.

[Lucy Howell] 16:22:21

Oh, that's right. Okay, got it. It's a telemetry sent out

[Steve Peters] 16:22:25

So so definitely, health will be one of those one of those areas. Bye.

[Lucy Howell] 16:22:29

With Janet and Cindy kind of leading that up

[Steve Peters] 16:22:32

Okay. But the one, the one thing that we're trying to look at and revisiting those those teams.

[Steve Peters] 16:22:39

Lucy is that, as you know, there are a whole lot of specialty groups.

[Steve Peters] 16:22:44

So there's seniors, and there's low income.

[Steve Peters] 16:22:46

And there's these people, and we're trying to not have a separate group for each of them.

[Lucy Howell] 16:22:51

Yeah.

[Steve Peters] 16:22:51

So it falls under digital inclusion. They certainly falls under connective.

[Steve Peters] 16:22:57

It falls under a lot of different ways. So just just so, you know.

[Steve Peters] 16:23:00

But but certainly because we have a longstanding relationship about medicine that we will definitely have a telemedicine health group

[Lucy Howell] 16:23:09

Yeah, I was thinking, schools and libraries were at, which is where I was.

[Lucy Howell] 16:23:15

Gonna go, sit, and try and bring value to

[Steve Peters] 16:23:15

And and well, well, and we're gonna try to schedule this so that people can attend any or all groups.

[Steve Peters] 16:23:22

We'll have a couple of leaders of each of the groups, but people can participate in whatever group, and, as I mentioned Lucy, what I found last time was that if we, when we first started that people would attend a group, and then the chairs would send out notices only to those people within that meeting, and

[Lucy Howell] 16:23:23

Yeah.

[Steve Peters] 16:23:42

I found that what happened was that people, for whatever reason, didn't make that first meeting, and so they weren't getting notified about future meetings.

[Steve Peters] 16:23:51

So I will send notifications of every Task group meeting the time and place.

[Steve Peters] 16:24:00

The well, zoom, login, and all of that kind of stuff.

[Steve Peters] 16:24:03

So we make sure that people can participate in any role groups that they choose to do. So

[Lucy Howell] 16:24:09

And I guess my goal would be to see if I can make your life easier in any way, shape or form.

[Steve Peters] 16:24:13

I would love to have that

[Lucy Howell] 16:24:14

So it doesn't all fall on to you. So that's what I want to get with you for about an hour, and say, if we're up to me, this is what I would propose to be your wing woman to help you, administrate all of this stuff yeah, and I'm not selling anything so it's not like I'm

[Steve Peters] 16:24:20

Okay.

[Steve Peters] 16:24:23

I I would love that, and Jan Schiller also. I don't.

[Steve Peters] 16:24:28

I don't think jam I don't think Jan is still on the call, but Jan has been absolutely awesome.

[Lucy Howell] 16:24:29

selling.

[Lucy Howell] 16:24:31

I don't think so.

[Steve Peters] 16:24:35

She's done some a lot of background work which frankly is maybe heard me tell her earlier.

[Steve Peters] 16:24:40

I haven't followed up on, but she is just yeah.

[Lucy Howell] 16:24:41

Oh, Jan Schiller, oh, yeah, okay. One of the consultants that you're working with to put this out. Yeah.

[Steve Peters] 16:24:42

She's just yeah. She's she's just just awesome.

[Steve Peters] 16:24:49

She's done a lot of great work for us that will help move the process along.

[Steve Peters] 16:24:53

What I want to do is to get as much work, background work done, so that when we start meeting that people don't co what did we do last year, what was the recommendation we made?

[Steve Peters] 16:25:04

When we get done we want to get a lot of that done prior to to people meeting.

[Lucy Howell] 16:25:06

Set right. Yeah, that's what I want to talk to you about.

[Steve Peters] 16:25:09

So we can make this, because last time I mean I will tell you.

[Steve Peters] 16:25:12

I can't tell you how many conversation, and I won't tell you with who people with people, that we had constant constant words smithing, and it's like, you know, people aren't gonna catch that subtle stuff, you know, if they catch the the main thoughts and that's it if this words.

[Lucy Howell] 16:25:16

Right.

[Steve Peters] 16:25:32

Not exactly right unless it's really a major issue. We can.

[Steve Peters] 16:25:36

We can't spend the time doing that. So

[Lucy Howell] 16:25:37

Oh, it's just death by a 1,000, you know. Well, what about this?

[Steve Peters] 16:25:39

Yeah, yeah, yeah, yeah, so so so we're not not going there with that.

[Lucy Howell] 16:25:43

Yeah.

[Steve Peters] 16:25:48

So anyway, that's

[Lucy Howell] 16:25:48

Okay, well, I just wanna I wanna stay in your ear so that you let you know if there's anything I can help make your life easier.

[Steve Peters] 16:25:54

That would be great. I would love it. That would. That would be wonderful.

[Lucy Howell] 16:25:55

Then I want to show you, yeah, okay, okay, cool. And then, John, I'll get with you later.

[Steve Peters] 16:26:00

Okay.

[Lucy Howell] 16:26:03

But you will be set up and outside you something that you could download, you know, as soon as we get off this phone, really to start playing.

[Lucy Howell] 16:26:13

But I set you guys up with the Wellness council and the fit family is in a healthy workflow team.

[JONATHAN BOUTILIER] 16:26:14

That's good.

[Lucy Howell] 16:26:18

Okay. Okay. Cool. So I'm off. I'll see.

[JONATHAN BOUTILIER] 16:26:18

Interesting, checking it out

[Steve Peters] 16:26:22

Okay, I think we're done for today. Thank you. All

[Lucy Howell] 16:26:22

You guys later, okay, thanks. Bye.
