- 08:11:20 From Mauricio Orozco to Everyone: Thanks
- 08:11:55 From Drew Garner to Everyone: I'd recommend collecting data on connectivity within MDUs and using that data to challenge the upcoming FCC maps when they overstate MDU service
- 08:12:15 From Drew Garner to Everyone: if you can get MDUs counted as unserved, then they will be in the first priority for BEAD funding

- 08:13:42 From Heather Floyd to Everyone: I think MDU's is a real opportunity to connect people, especially those in lower economic income areas. MDU's will allow for a high number of people connected in more compact build outs.
