

June 14, 2021 AZBSN COVID-19 Digital Access Task Force Teleconference Report

Attendees

Steve Peters, Oris Friesen, Henry Goldberg, Mark Goldstein, Tracey Beal, Meghanne Bearden, Karen Beshak, Andrew Bevington, Brendon Blake, Melissa Boydston, Gene Carl, Eric Case, Michael Cohen, Hap Connors, Jerry Crow, Milan Eaton, Michael Edmonds, Adam Fletcher, Marcelino Flores, Karen Hewitt, Cindy Hogan, Shereka Jackson, John Kelly, Ryan Kelly, Debbie Kovesdy, Linda Leatherman, Tarma Liranzo, Jim Logan, Ilana Lowery, Sophia Mayberry, Randy Mifflin, Mala Muralidharan, Mauricio Orozco, Cody Pedersen, Lea Marquez Peterson, Lawrie Prickett, Tracy Rexroat, Paul Ross, Michelle Simon, Andy Sinclair, Roniyur Singh, Troy Smith, Jeff Sobotka, Paul Stapleton-Smith, Tom Tardy, Paul Trujillo, Manny Villa, Karen Ziegler

Task Force Sponsors, Events and Updates Webpage, Participants List, Planning Committee

Task Force Sponsors

Steve Peters again thanked Care1st Health Plan Arizona, Valley of the Sun United Way, the Satellite Broadcasting & Communications Association, and Kajeet for providing sponsorship funding for this task force. The sponsors are displayed on the task force website.

Steve is continuing to seek further funding support for the task force's upcoming work, and welcomes any organizations interested in becoming sponsors.

Task Force Events and Updates Webpage

Steve continues to add information relevant to the task force on the Events and Updates webpage of the task force website. Steve includes a link to this webpage/newsletter in his e-mails to the task force, and strongly encourages task force participants look at this webpage regularly for important information on programs (e.g. federal grant programs), events, and contacts.

Task Force Participants List

Steve noted that the task force participants spreadsheet is located on the task force website. Steve again asked attendees to fill out the Google form on the website to be included in this spreadsheet. This is a good place for task force participants who are looking to connect with others on the task force.

Attendees at task force meetings showing their position and contact information are also included in an Appendix of each task force meeting report.

Task Force Planning Committee

Mark Goldstein stated that at the ATIC June 9th Board Meeting there was discussion about the need to start having meetings of this task force's planning committee to recommend next steps to follow up on the task force recommendations report. Steve responded that he will be arranging such a meeting but it has been difficult to schedule a time that works for everyone on this planning committee.

Updates: State Broadband Director, AZ State Library, ADE, ACC

State Broadband Director Update

Jeff Sobotka, State Broadband Director at the Arizona Commerce Authority (ACA), reported on his recent activities.

The Regional Technical Assistance Sessions following up on the June 2nd ACA Arizona Broadband Workshop will be held Wednesday, June 16th. These sessions will discuss two topics: 1) an "elevator pitch" providing a concise description for a community on what it would like to accomplish with its broadband project; and 2) specific federal grant programs their broadband projects would best qualify for. Task force participants are invited to attend a regional technical assistance session, and can register on the ACA website www.azcommerce.com/broadband (Jeff will send an e-mail today to the task force on this). Steve Peters added that the ACA has been publishing the recordings of the Arizona Broadband Workshops, which are linked to on the task force Events and Updates webpage.

The ACA has retained KPMG as the external consulting firm to provide an update to the state broadband strategic plan focusing on middle-mile fiber strategy/planning. KPMG has done such middle-fiber strategy work in Georgia, North Carolina, and Pennsylvania. Some of our task force participants will be invited to meet with KPMG to discuss this consulting project.

The State of Arizona through the ACA is seeking to formally support an eligible project for the NTIA Broadband Infrastructure Grants Program (\$288 million in national funding available for this new 2021 program). The grants are designed for public-private partnerships between states or subdivisions of states and private service providers who will provide fixed broadband service in an eligible service area (primarily intended for rural areas). ACA has requested submissions of expression of interest in applying for this grant program by June 18, 2021, and the ACA intends to select an eligible project to formally endorse or serve as a co-applicant for the grant. Jeff will be in Flagstaff today and Prescott tomorrow and is also traveling to other communities to discuss this NTIA Broadband Infrastructure Grants Program.

Jeff reported that the ACA Rural Broadband Development Grants (RBDGs) program funding must be resolved by the state legislature by June 30th, and the ACA will put out information on applying for this program soon after July 4th.

Jeff noted that counties/communities who are aggressive will be able to benefit from the considerable federal/state funding for game-changing broadband infrastructure.

Jeff also thanked the task force's Emergency Broadband Benefit (EBB) outreach team for the excellent work they are doing in helping low-income households enroll in the EBB program.

.Arizona State Library Update

Mala Muralidharan, E-rate Administrator for Public Libraries at the Arizona State Library, reported on her and Arizona State Library recent activities.

Mala reported that the USAC Emergency Broadband Benefit (EBB) program tracker shows that about 87,000 Arizona households have applied through the USAC National Verifier website as of this date. Arizona is the 8th leading state in terms of total number of households enrolled. The households must enroll with service providers after they are qualified to be eligible for EBB. Mala added that the task force has done its work in EBB outreach, but must now actively work on enrolling households and the Arizona State Library is helping with this.

Mala reported that the FCC Universal Service Fund (USF) contribution factor from service providers is unchanged this quarter from the previous two quarters, so that limits how much funding could be available for new FCC programs.

The FCC Emergency Connectivity Fund (ECF) program (discussed at previous task force meetings) provides \$7.17 billion in support to schools and libraries for off-campus primarily home connectivity for students, school staff, and library patrons by covering purchases of broadband connectivity and laptops/tablets, Wi-Fi hotspots, modems, and routers. Later this month, the FCC/USAC will open the first funding window of applications for purchases for the the upcoming 2021-22 school year. USAC will conduct ECF training at several times this month (see Mala's written report in Appendix 1) to register.

Milan Eaton, State E-rate Director at the Arizona Dept. of Education (ADE), reported that he has worked with Sophia Mayberry of ADE to send out a survey to schools to justify the needs for connectivity and devices at homes for their students/staff as required to apply for the ECF program. Milan explained that opening the ECF filing window and doing ECF training in late June is a bad time because schools are closed and many staff are on vacation. Mala added that this is also a bad time for libraries because they are busy with their summer reading programs, and it is difficult to derive the unmet digital access needs of library patrons. Milan noted that unfortunately the ECF program will likely not fund "to and through" broadband infrastructure projects using schools and libraries' existing fiber backhaul Internet access networks because the ECF rules state that such broadband infrastructure will only be funded if there is no service provider connectivity whatsoever in the community. Milan stated it would have been preferable if they had at least required there be no 25/3 Mbps services in the community. Jeff Sobotka commented that Yavapai County and the Navajo Nation could have been good candidates for ECF to and through projects otherwise. Milan responded that the Navajo Nation has received E-rate funding for deploying fiber from their Chapter Houses (considered as libraries) so could have combined this with broadband infrastructure to connect Navajo homes to the Chapter Houses if the ECF allowed the to and through approach. Milan concluded saying that the ECF application forms are similar to E-rate application forms, but there is still the problem of having school staff available to fill out the application forms during the summer. Mala added that the Arizona State Library is working with the American Library Association to change the ECF rule requiring 10-year retention of documents because libraries do not retain personally-identifiable information of this type.

See Mala's written report in Appendix 1 for further information on EBB, USF, and ECF.

ADE Update

Sophia Mayberry, Project Manager in the Office of the Superintendent of Public Instruction at the Arizona Dept. of Education (ADE), and Milan Eaton, State E-rate Director at ADE, reported on recent ADE activities.

Sophia reported that the ADE Technology Task Force will be making an announcement soon and ADE has a new webpage for this task force. The ADE Technology Task Force has written a white paper “The Digital Divide in Rural Arizona”, which includes the results from a survey on the connectivity needs for students from homes. This task force has also created a digital learning resource for teachers. The long-term plan of the ADE Technology Task Force is to focus on how ADE can better support schools with technology.

ADE has published an updated parent toolkit for distance learning (see Sophia’s link to this in the Appendix 2 Chat).

Milan Eaton reported that the Arizona Rural Schools Association Final Mile Project (discussed by Wes Brownfield on March 15th and Milan on April 5th in our task force meeting reports) received \$1.5 million in funding for pilot projects at rural schools to demonstrate that broadband (100 Mbps) access from student homes to schools can be provided for under \$10 per month per home. The Final Mile Project released today RFPs for these pilot projects at five rural school districts (and there will be two more school districts in the future).

As discussed by Milan in the previous section, Sophia added that she invites task force participants to help share the ADE ECF connectivity needs survey with schools.

ACC Update

Lea Marquez Peterson, Commissioner and Chair of the Arizona Corporation Commission (ACC), reported on her and ACC recent activities.

Lea explained that the ACC regulates utilities, and has some limited jurisdiction over telecommunications service providers.

The ACC is conducting an investigation of Frontier 911 coverage in rural Arizona.

Lea added that the ACC regulatory structure can be used to ensure that communities are getting what they bid for in terms of telecommunications services.

Emergency Broadband Benefit Program Outreach and Enrollment

The task force continued to discuss its work in organizing outreach to low-income households to apply for the FCC Emergency Broadband Benefit (EBB) program (discussed at previous task force meetings). The EBB program enrollment process began on May 12th, and has limited funding (\$3.2 billion nationally) and is of limited duration, so the task force would like to assist Arizona low-income households in signing up before the funding and time run out.

Tracey Beal (Executive Director of School Connect) is taking the lead on organizing the task force’s EBB outreach activities, and is working with Ilana Lowery (Arizona Director of Common Sense Media), Cindy Hogan (Digital Equity Project Manager of the United Way of Tucson & Southern Arizona), Nicole Umayam (Digital Inclusion Library Consultant at the Arizona State Library), and Mala Muralidharan (Arizona State Library) on this.

Tracey stated she has been working with April Jones of the Dept. of Economic Security on doing EBB outreach to their constituents. Tracey noted that as Mala reported above, the USAC EBB tracker is showing Arizona is making strong progress in enrolling households in the EBB program.

Cindy Hogan reported that she has worked at a Tucson public housing location signing up households for EBB, and is working with Wes Brownfield to enroll households in EBB at a school in Ajo. Cindy added that she would like to get updates on the Pima County digital access strategic plan activity discussed by Michelle Simon at the June 7th task force meeting, and Steve Peters responded that he will be assembling a team from our task force to become involved with this strategic plan (he is discussing this with Jeff Sobotka).

Marcelino Flores, Special Staff for Community and Workforce Development in Pima County, reported that he was involved with promoting EBB enrollments at a Pima County resource fair that provided housing and rental assistance for low-income households, and this resource fair was covered by the media.

“Youth and Educators Succeeding” Presentation

Steve Peters noted that Dennis Harper, Founder and CEO of Generation Yes (GenYES), had presented to our task force (Education & Libraries Subcommittee) in May 2020. Steve invited Adam Fletcher, the new Executive Director of “Youth and Educators Succeeding” which now succeeds GenYES, to deliver a presentation to our task force. Following is a summary of key points from the presentation, and the full presentation will be posted on the task force website.

“Youth and Educators Succeeding” (YES) is an international non-profit education organization whose mission is to engage students and educators together to transform learning and leadership. They partner with schools, corporations, foundations, state agencies, and education organizations to support digital equity through student leadership in technology. They have worked with 2500 K-12 schools worldwide in their 25-year history. In the 2020-21 school year, they are working with 123 U.S. schools, including 25 schools in Arizona (18 in Yuma and several in Tucson).

YES' philosophy is that it is not enough to give students devices and connectivity, but they should also be involved in how these digital resources can be most effectively used in their schools and communities. They use three overall methodologies in their work with schools: programs, professional development, and projects.

YES offers five programs: GenYES (the flagship program), SoundOut, Freechild Institute, Hire-Pathways, and YESFam. GenYES prepares students in grades 3-12 to become Student Technology Leaders (STLs) that work with teachers, administrators, IT staff, and other students to support technology integration and infrastructure for the school – STLs provide training and professional development for teachers. GenYES focuses on technology integration, service learning, student learning, and tech support; it has a unique approach with students as partners in teaching with teacher-ticketing for STL assignments, year-round activities, and school/community partnerships. SoundOut fosters student involvement through training and tools. Freechild Institute fosters youth-led social change involvement. Hire-Pathways provides project-based learning experiences for students working with companies potentially leading to future career pathways. YESFam fosters youth engagement to strengthen their families.

YES currently has partnerships with the National Learning Service Coalition, the Ohio Management Council, and the Student Voice Research and Practice Coalition. They have projects with organizations such as the International Student Voice Summit, Compton Unified School District summer camps, and the California Student School Board Association. They are looking to drive local community collaborations, statewide and national projects, and fostering international connections.

Adam stated YES would like to collaborate with our task force in establishing its programs effectively in Arizona school districts. John Kelly remarked that his son is a GenYES alumnus, and this was incredibly important for his development. Melissa Boydston, Vice President of the Valley of the Sun United Way, commented she would like to connect with YES, and Adam replied he would definitely be happy to do that (and put his contact information in the Appendix 2 Chat). Mauricio Orozco asked if YES has done programs for children in foster care, and Adam replied that YES has done such activities nationally.

Steve Peters concluded saying that there is an overall need for tech support in schools, for seniors, and communities. Steve will create a task force team to explore possibilities for working with YES to meet Arizona needs since this is a great way to engage young people in providing valuable services for their schools and communities. Steve would also like to consider whether the Arizona Rural Schools Association could incorporate YES programs into their Final Mile Project.

Next Steps

The next AZBSN COVID-19 Digital Access Task Force overall meeting will be held on Monday, June 21st at 7:30 am.

As noted above, the ACA Regional Technical Sessions following up on their recent Arizona Broadband Workshop will be held on Wednesday June 16th.

Steve Peters noted that he will be taking vacation in July and may need to cancel a couple of task force meetings then. Karen Ziegler suggested that she or Mark Goldstein could host the task force teleconferences if Steve is not available then.

Henry Goldberg and Oris Friesen will write up a summary report of today's task force meeting.

Appendix 1: Mala Muralidharan Report on: FCC Universal Service Fund (USF), Emergency Broadband Benefit (EBB Program), and Emergency Connectivity Fund (ECF)

E-rate: USF Contributions

Proposed Third Quarter 2021 Universal Service Contribution Factor CC Docket No. 96-45 In this Public Notice, the Office of Managing Director (OMD) announces that the proposed universal service contribution factor for the third quarter of 2021 will be 0.318 or 31.8 percent. No change from the first two Quarters [DA-21-676A1.pdf \(fcc.gov\)](#)

EBB tracker : 87,167 households have applied through National Verifier up from 82,000 last bweek ... paper applications are not tracked here. Only CA, Florida, Georgia, NY, Pennsylvania, Texas, Ohio more applicants than us.

Emergency Connectivity Funds : ! The Emergency Connectivity Fund Program will provide \$7.17 billion in support to schools and libraries for the purchase of eligible laptop and tablet computers, Wi-Fi hotspots, modems, routers and broadband connectivity during the coronavirus (COVID-19) pandemic for use by students, school staff, and library patrons who would otherwise lack connected devices and/or broadband connections sufficient to fully engage in remote learning. Later this month, the FCC and USAC plan to open the first funding window, which will fund equipment and services for the upcoming 2021-22 school year. More detail is available in the FCC [Order](#) that established the Program. To learn more about the Program, please visit [EmergencyConnectivityFund.org](https://www.fcc.gov/emergency-connectivity-fund) and sign up for [Program emails](#).
USAC Trainings for Schools/Libraries/Service Providers
USAC will conduct outreach and training about the Emergency Connectivity Fund Program. Register for an Emergency Connectivity Fund overview training. USAC will repeat the training several times to allow all potential applicants to join a session.

- Wednesday, June 16 @ 2 p.m. ET: Emergency Connectivity Fund Overview Webinar for E-rate Participants – [Register](#)
- Thursday, June 17 @ 2 p.m. ET: Emergency Connectivity Fund Overview Webinar for New (Non E-rate Participants) – [Register](#)
- Thursday, June 17 @ 4 p.m. ET: Emergency Connectivity Fund Overview for Tribal Applicants – [Register](#)
- Wednesday, June 23 @ 3 p.m. ET: Emergency Connectivity Fund Overview for Potential Applicants – [Register](#)

Visit the [Emergency Connectivity Fund Program website](https://www.fcc.gov/emergency-connectivity-fund) to view trainings, access e-learning modules and register for office hour sessions. Call USAC at (888) 641-8722 or email CustomerSupport@usac.org.

CONCERNS

- **TIMING** : Schools are on vacation and Libraries busy with Summer Reading. The short window is likely to open and close right after schools open for the next semester.
- **ESTIMATE NEEDS** How do Libraries estimate their patrons need? What is enough? Schools have to prove that there is an “unmet need”. Libraries have to have a Policy document signed by patrons. Milan mentioned that schools are doing a survey to estimate needs.
- **FUNDS DISTRIBUTION** – If demand exceeds the availability – then applicants with highest NSLP data will get funded first. Rural Applicants will get a 5% bump over their NSLP data numbers.

- **RETENTION OF DOCUMENTS:** Libraries do not reveal or retain Personally Identifiable Information. Program requires this to be retained for 10 years.

These are a few of the concerns.

Appendix 2: Chat from Zoom

Mark Goldstein to Everyone (7:49 AM)

ASU Lighting Up the Future has aggregated their planned regional broadband roundtable sessions to now three statewide sessions, 6/7 (already held) on The Availability Gap, 6/21 on The Adoption Gap, and 7/12 on The Utilization Gap all from 4:00-5:00 PM PST. Details and free registration from the ASU UTO Events page at <https://uto.asu.edu/events> FYI.

Sophia Mayberry to Everyone (7:52 AM)

I'll be talking about this in my update as well

marcelinoflores to Everyone (7:54 AM)

or affordable connectivity...

Debbie Kovesdy to Everyone (7:55 AM)

We can help get refurbished computers to families. We've developed a community event for this. Schools are closing their fiscal year in June too.

Cindy Hogan to Everyone (7:56 AM)

Can everyone please mute???

Jeffrey Sobotka to Everyone (7:58 AM)

Great job Tracey!

Mauricio Orozco to Everyone (7:58 AM)

Can churches qualify for this funding, specially the ones that have a preschool, childcare or elementary school attached? Thanks

Ilana Lowery to Everyone (7:59 AM)

@Tracey, I got Common Sense to get the EBB info on our website

Tracey Beal to Everyone (8:00 AM)

Common Sense ROCKS!!! Thank you so much, Ilana!

Mala Muralidharan to Everyone (8:00 AM)

The Elementary school attached to the Church has to be recognized by ADE to get E-rate / ECF funding

Mauricio Orozco to Everyone (8:01 AM)

Thank you

Ilana Lowery to Everyone (8:04 AM)
Thanks @Tracey!

John Kelly to Everyone (8:04 AM)
The rural digital divide paper is a model of problem definition and explanation. Thorough and in depth and clear.

Ilana Lowery to Everyone (8:04 AM)
Great job Sophia! It was a pleasure working on the ADE Tech Task Force

Sophia Mayberry to Everyone (8:04 AM)
Updated Parent Link
<https://www.azed.gov/covid-19/arizona-parent-caretaker-toolkit-distance-learning>

Tom Tardy to Everyone (8:05 AM)
Cool. I would be interested in the RFP, tom@gingersec.com

Lawrie Prickett to Everyone (8:06 AM)
I'm also interested in the RFP's What's the address?

Jeffrey Sobotka to Everyone (8:06 AM)
Keep pushing forward Sophia! AZ kids are lucky we have you!

Sophia Mayberry to Everyone (8:07 AM)
Thanks Jeff!

Milan Eaton to Everyone (8:07 AM)
If you want a copy of the RFP, milan.eaton@azed.gov

Debbie Kovesdy to Everyone (8:09 AM)
Very exciting! Welcome Adam

Tracey Beal to Everyone (8:15 AM)
Very exciting information, Adam! Love this! AND love what Debbie is doing as well!

Milan Eaton to Everyone (8:19 AM)
"The Final Mile Project" RFP's are online at: <https://www.thefinalmileproject.com/Request-for-Proposal>

Mala Muralidharan to Everyone (8:22 AM)
Great Job Andrew and YES TEAM!!!!

Debbie Kovesdy to Everyone (8:22 AM)
Absolutely! GenYes / Now YES is absolutely amazing!

Manny Villa to Everyone (8:23 AM)
Thank you for that information Adam!

Adam F.C. Fletcher to Everyone (8:23 AM)
(360) 528-2345 and adam@yesk12.org

Tracey Beal to Everyone (8:23 AM)
I can definitely see School Connect working with you, Adam!

Debbie Kovesdy to Everyone (8:23 AM)
Yes... great!

Melissa Boydston to Everyone (8:24 AM)
Yes Steve - great idea, would love to be apart of that deeper conversation.

Tracey Beal to Everyone (8:24 AM)
I would love to participate as well!

Shereka Jackson to Everyone (8:24 AM)
me too

Mala Muralidharan to Everyone (8:24 AM)
Andrew we would love to work with you as a part of Digital Inclusion

Adam F.C. Fletcher to Everyone (8:24 AM)
Please check out <https://yesk12.org>

Debbie Kovesdy to Everyone (8:24 AM)
OF COURSE ... GenTech!

Cindy Hogan to Everyone (8:24 AM)
Count me in!

Adam F.C. Fletcher to Everyone (8:24 AM)
<https://genyes.org>
<https://freechild.org>
<https://soundout.org>

Ilana Lowery to Everyone (8:25 AM)
Common Sense could absolutely collaborate with YES with our family engagement programs and resources for kids.

Adam F.C. Fletcher to Everyone (8:25 AM)
and... <https://hire-pathways.org>

Tracey Beal to Everyone (8:26 AM)
Great job, Cindy!

Adam F.C. Fletcher to Everyone (8:27 AM)
THANKS EVERYONE!

Manny Villa to Everyone (8:27 AM)

Steve, could you please add me to the contact list? I am Manny Villa, new IT Director at Sahuarita Unified School District, my email: mvilla@sahuarita.net. I'd like to get invites for the future meetings. Thank you!

Tracey Beal to Everyone (8:29 AM)

Steve, you definitely deserve a vacation!

Paul Stapleton-Smith to Everyone (8:31 AM)

The Eviction Prevention Resource Fair last Tuesday in Tucson was an amazing and important event that served families in the most meaningful and simple ways. The emergency broadband benefit was a key draw and benefit. We look forward to the next events. Thank you to everyone that stood that event up, and for everyone on this call that helped us design and execute the event.

Tom Tardy to Everyone (08:31:45)

Thanks!

Mala Muralidharan to Everyone (08:31:45)

Thank you

Manny Villa to Everyone (08:31:46)

Thank you!

Debbie Kovesdy to Everyone (08:31:48)

Thanks Steve
