Task Force Meeting Chat –October 17, 2022

- 07:41:59   From John Kelly : Here is another intriguing job posting at ACA...https://www.bing.com/jobs?q=arizona+commerce+authority+svp+job&scp=0&jid=1478324023.Retro&rb=0&rc=20&L2=true&c=1

- 07:44:00   From Manny Villa : Thank you, John.

- 07:53:06   From Lucy Howell : @Ken - love how this really starts at the basics….understanding what a URL is and secure vs non-secure sites. Great job!

- 07:54:49   From Ilana Lowery : Starts with knowledge of online privacy.

- 07:57:46   From Mark Goldstein : CompTIA has issued a State of Cybersecurity Report available for download at https://connect.comptia.org/content/research/cybersecurity-trends-research FYI.

- 07:58:13   From Mark Goldstein : ASU News: $34.6M investment in ASU to help create reliable internet access and training for the region (9/29/22) - https://news.asu.edu/20220929-arizona-impact-346m-investment-asu-help-create-reliable-internet-access-and-training-region

- 07:59:15   From Germaine @ Alluvion Communications : public wifi should have some type of a accountability/compliance law.

- 07:59:35   From Cindy Hogan : Good thought, Germaine

- 08:00:19   From Germaine @ Alluvion Communications : Free wifi is a free. but not always secured. :(

- 08:01:38   From Kenneth Charvoz : https://connections.oasisnet.org/oasis-connections-guide-to-online-safety/

- 08:03:31   From John Kelly : Big concern for me is when we distribute obsolete technology, the security profile of the devices may not be up to speed.

- 08:05:05   From MICHELLE SIMON   to   Steve Peters(Direct Message) : Sorry! Literally my connection dropped when you asked if I was here.

- 08:05:08   From Cindy Hogan : John, that is a big deal, thank you for mentioning!

- 08:06:08   From Germaine @ Alluvion Communications : they need to sign off for accountability

- 08:06:19   From Ryan Murray : Additionally, technology (specifically the software that runs it) becomes obsolete nearly immediately, and requires care and feeding to remain secure. Teaching users to click that "update" button, but not click on things pretending to be updates, is tricky

- 08:06:26   From Mala AZ State Library : Most public access computers in Library have Deep Freeze

- 08:08:26   From Mark Goldstein : Highlights from ASU's Arizona Digital Inclusion Celebration Summit on 10/3/22 can be found in the blog post at https://shapingedu.asu.edu/blog/changemakers-share-how-they-are-advancing-solutions-arizona-digital-inclusion-celebration, access to sessions replay at
