New Mexico Telehealth Alliance

Utah

The screenshot shows the homepage of the Utah Telehealth Network (UTN). The header features a red logo with a heartbeat line and the text "Utah Telehealth Network". Below the header is a navigation bar with links: "About UTN", "Media Services", "Live Stream Links", "Educational Events", "Network & Security", "Telehealth Resources", and "COVID-19". The main content area has a large background image of a desert landscape with a road leading to a mesa. Overlaid on this is a red box with the text "Utah Telehealth Network" and a description: "The Utah Telehealth Network (UTN) links patients to health care providers using leading edge telecommunications technologies. UTN supports patient care, care coordination, and the education of health professionals. Health care facilities connect into UTN's secure, fast, reliable network." Below this is a "Learn More" button. At the bottom, there are two sections: "News" and "Tweets by the Center for Connected Health Policy". The "News" section has a headline "UETN CARES: Telehealth and Virtual Nursing Labs" and a paragraph about the COVID-19 pandemic. The "Tweets" section shows a tweet from Pew States (@PewStates) stating that the number of telehealth visits increased by as much as 40% during spring and summer 2020.

Telemedicine and Broadband

OeHI's **Telehealth and Broadband Initiative** develops and supports approaches that lead to increased adoption of telehealth, and reliable and affordable broadband access for health organizations and consumers. Telehealth and broadband are key priorities of the Primavera and Polis administration. Colorado has already made significant progress in providing remote access to care through telemedicine. Telehealth is an important avenue to support health care reform and is increasingly seen as an acceptable alternative to many types of in person provider visits. One of OeHI's Wildly Important Goals, or WIGs, for this year is to increase utilization of telebehavioral health in safety net providers. OeHI is also working to support expansion of telehealth policies and practices based on cost savings, economic impact, and health outcomes.

In Colorado's rural areas, only 7 in 10 people have access to broadband. OeHI's goal, in partnership with other state agencies, is to raise rural broadband availability and pave the path to achieve 100 percent access for all of Colorado. Lack of broadband inhibits the utilization of telehealth services in many parts of rural Colorado as well as the uptake of other emerging health IT capabilities. OeHI is working with the state to expand usage of telemedicine and broadband access in order to make health care across the state more affordable and accessible for all.

SUMMARY

The Arizona Broadband Development Grant Program (ABDG) will enable local communities to construct or improve broadband infrastructure. The historic investment will build on the progress of recent years and strengthen communities' capacity and competitiveness for economic growth. The ABDG is intended to bridge the digital divide and enhance the connectivity for Arizona's citizens, businesses, healthcare institutions, government establishments, and education sector.

Save the Date DIGITAL LITERACY FORUM Why Digital Literacy Matters

Workforce Development • Adult Education • Older Adults • Telemedicine • Online Safety

VIRTUAL EVENT

October 4, 2022 • 10:00 am–12:00 pm

Executive Director of Next Century Cities and Digital Advocate

Francella Ochillo

Digital literacy is essential in today's world. Being digitally literate allows you to use technology to find, evaluate, create, and communicate information effectively.

These crucial skills are connected to every aspect of life, from training and finding employment and connecting with healthcare providers to pursuing educational opportunities and socializing.

Come to the Digital Literacy Forum to:

- Explore the urgent need for a digitally literate Pima County;
- Learn about digital literacy efforts already underway in our community;
- Find out how you or your organization can get involved

With partner

The Arizona Telemedicine Program, the Southwest Telehealth Resource Center invite you to a **free** webinar to review some of the telemedicine and telehealth technology recently exhibited at the American Telemedicine Association's 27th Annual Telemedicine Meeting & Trade Show: ATA 2022

Webinar

Thursday, September 22 ~ 12:00pm Arizona Time

(12pm PDT; 1pm MDT; 2pm CDT; 3pm EDT)

ATA 2022 Exhibit Hall Technology Review

Learning Objectives:

1. Review the current trends observed at the annual signature event for telemedicine technology.
2. Take a virtual tour of the ATA 2022 Conference & Expo held in Boston
3. Learn who to go to and where to go to get access to the best resources in telemedicine and telehealth technology.

Janet Major is the Associate Director for Innovation & Digital Health for the Arizona Telemedicine Program (ATP) and the Southwest Telehealth Resource Center (SWTRC). Her role includes the planning, development and installation of the teleconferencing and telemedicine technology used for providing telemedicine services in a wide variety of locations. She provides training for all levels of healthcare professionals in the effective use of videoconferencing for clinical and educational applications used for LIVE interactive and store-and-forward applications. She has served as a leader for several statewide and national organizations with an emphasis on those that promote and support telemedicine training and providing the healthcare workforce of

TEN MILLION HOUSEHOLDS CONNECTED

10 WAYS TO SPREAD THE WORD

01 HELP YOUR COMMUNITY ENROLL

Sign up as an enrollment partner today at fcc.gov/ACP.

02 SPREAD THE WORD

Are you organizing school packet pick-ups or a local food drive? Download and print ACP flyers to include in pick-up materials: fcc.gov/acp-toolkit.

03 REQUEST PRINTED MATERIALS

Printed versions of FCC ACP Outreach Toolkit materials are available. Send an email to ACPInfo@fcc.gov and provide details on what you need.

04 CONNECT WITH LOCAL INSTITUTIONS

Ensure schools, libraries, health clinics, and community centers know about the ACP and have info to help eligible students and patrons enroll.

06 SHARE ACP INFO ON YOUR WEBSITES AND SOCIAL MEDIA

The FCC has ready-to-post graphics, videos, and PSAs available for you to share with your network in the ACP Outreach Toolkit.

05 INVOLVE YOUR LOCAL GOVERNMENT

Does your local employment assistance or social services office have ACP information? Put Outreach Toolkit materials in helping hands.

07 REQUEST A SPEAKER FOR AN EVENT

Have a local event coming up? Want to train your members to serve as ACP ambassadors? Send a speaker request to ACPSpeakers@fcc.gov.

08 HELP CONNECT THE UNCONNECTED

Download and print application forms, worksheets and instructions in English or Spanish at ACPBenefit.org

09 FIND LOCAL PROVIDERS

Browse listings by state or territory at fcc.gov/acp-providers-by-state.

10 LET EVERYONE KNOW

Spread the word about ACP on community bulletin boards, both online and around town!

AFFORDABLE CONNECTIVITY PROGRAM
fcc.gov/acp

<https://connect-arizona.com>

The graphic features a teal background with a central sunburst design. A dark teal circle at the top center has several rays extending outwards. Below the sunburst, there are five stylized houses in shades of green and blue. The text "Search through resources." is positioned to the left of the sunburst.

Search through resources.

Grants

NTIA administers grant programs that further the deployment and use of broadband and other technologies in America, laying the groundwork for sustainable economic growth; improved education, public safety, and health care; and the advancement of other national priorities.

Infrastructure Investment and Jobs Act Overview

On November 15, 2021, President Biden signed the **Infrastructure Investment and Jobs Act** into law. This Act includes a significant investment of \$65 billion to help close the digital divide and ensure that all Americans have access to reliable, high speed, and affordable broadband. This investment builds upon the funding for broadband deployment provided in the American Rescue Plan, the Consolidated Appropriations Act, 2021, the FCC's Universal Service program, and USDA's Rural Utilities Service broadband programs. This historic investment will lay critical groundwork for widespread access and affordability of broadband, creating new jobs and economic opportunities, providing increased access to healthcare services, enriching educational experiences of students, and improving overall quality of life for all Americans.
