

TOMMY GEARHART, with Amplify Education

I have 20 years of combined experience in the Education, Telecom/IT, and Government fields. My specialties are K-12, Higher Education, and Government agencies. I am a consistently high performer who is accountable to my team and, especially, my customers. I use Best-In-Class approaches to provide customized solutions that get deep and wide into accounts in order to build sincere, high quality, multi-threaded relationships, sales, and most importantly, excellent student outcomes.

I currently sit on the Board of Directors for the Arizona Telecommunications & Information Council (ATIC). I have a passion for education, raising money and awareness for the National Multiple Sclerosis Society and the Accelerated Cure Project, and also have a lifelong relationship with music as a musician and fan. Additionally, I've served as a Governor appointed Music Commissioner in New Mexico and sit on several other boards actively.
